

## Ashmore SICAV

Société d'Investissement à Capital Variable Luxembourg  
R.C.S. Luxembourg B 90279

### **ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**

For the year ended 31 December 2024

---

## General Information

The information represented in this report relates to the year from 1 January 2024 to 31 December 2024. It should not be taken as an indication of the future development of Ashmore SICAV (the “Company”).

The Board of Directors may establish different portfolios of assets in one or more Sub-Funds of the Company at any time to meet, in its opinion, the needs of different Shareholders. During the year under review, the Company comprised 30 Sub-Funds, namely:

- Ashmore SICAV Emerging Markets Debt Fund
- Ashmore SICAV Emerging Markets Sovereign Debt Fund
- Ashmore SICAV Emerging Markets Sovereign Investment Grade Debt Fund
- Ashmore SICAV Emerging Markets Local Currency Bond Fund
- Ashmore SICAV Emerging Markets Local Currency Bond Fund 2
- Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund
- Ashmore SICAV Emerging Markets Absolute Return Debt Fund (terminated operations on 1 October 2024)
- Ashmore SICAV Emerging Markets Total Return Fund
- Ashmore SICAV Emerging Markets Total Return Debt Fund 2
- Ashmore SICAV Emerging Markets Investment Grade Total Return Fund
- Ashmore SICAV Emerging Markets Frontier Blended Debt Fund (launched on 2 December 2024)
- Ashmore SICAV Emerging Markets Multi-Asset Fund
- Ashmore SICAV Emerging Markets Corporate Debt Fund
- Ashmore SICAV Emerging Markets Corporate Debt ESG Fund (terminated operations on 16 July 2024)
- Ashmore SICAV Emerging Markets Investment Grade Corporate Debt Fund
- Ashmore SICAV Emerging Markets High Yield Corporate Debt Fund (terminated operations on 29 April 2024)
- Ashmore SICAV Emerging Markets Asian High Yield Debt Fund
- Ashmore SICAV Emerging Markets Short Duration Fund
- Ashmore SICAV Emerging Markets Investment Grade Short Duration Fund
- Ashmore SICAV Emerging Markets Global Small-Cap Equity Fund
- Ashmore SICAV Emerging Markets Frontier Equity Fund
- Ashmore SICAV Emerging Markets Active Equity Fund
- Ashmore SICAV Middle East Equity Fund
- Ashmore SICAV Emerging Markets Equity Fund
- Ashmore SICAV Emerging Markets Indonesian Equity Fund
- Ashmore SICAV Emerging Markets Equity ESG Fund
- Ashmore SICAV India Equity Fund
- Ashmore SICAV Emerging Markets Equity ex China Fund (launched on 16 July 2024)
- Ashmore SICAV Global Liquidity US\$ Money Market Fund (terminated operations on 29 November 2024)
- Ashmore SICAV Emerging Markets Shariah Active Equity Fund

This report does not constitute an offer or an invitation to purchase Shares of the Sub-Funds referred to herein. Subscriptions are only valid if made on the basis of the current Prospectus, Key Investor Information Document (KIID), and Key Information Document (KID) for Packaged Retail and Insurance-based Investment Products (PRIIPs) supplemented by the latest audited annual report. Should the reference date of the audited annual report date back more than eight months, the subscriber must also be supplied with a semi-annual report.

The figures stated in this report are historical and not necessarily indicative of future performance.

# 1: Introduction

## Investment Manager's Report (unaudited)

### Market Review

In Q1 2024, upside surprises to global growth and inflation boosted equity markets returns, while government bond yields widened significantly and retraced half of the previous quarter's strong rally. The equity markets rally was broad based, taking many market indices to all-time highs as growth concerns alleviated, earnings came in above expectations, and more sectors participated beyond large cap tech stocks. Although year-on-year (yoy) inflation numbers fell at a slower pace than anticipated, the market never seemed to truly question the disinflation narrative and policymakers stuck to their dovish bias, keeping financial conditions relatively easy.

In Q2 2024, global bond yields finished the quarter a few basis points (bps) higher, as a spike in bond yields in April was promptly retraced lower in May and June when inflation numbers finally started coming below expectations. Global equity markets also rebounded from late April onwards to close the quarter at all-time highs, buoyed by stronger earnings expectations.

In Q3 2024, Global bond yields rallied sharply as global economic momentum slowed down and the US Fed (Fed) finally delivered its first rate cut in this interest rate cycle. The September 18, 50 bps rate cut was larger than initially expected, and of a pre-emptive nature, i.e. designed to normalise monetary conditions as opposed to respond to market stress. As a result, it was received as an unequivocal boost to financial conditions and sent equities and risk assets sharply higher during the quarter.

In Q4 2024, global government bond yields reversed all the gains posted during the previous quarter as US inflation numbers notably proved stickier than expected. Long-dated bond yields started pricing in a higher risk premium, in response notably to concerns about the effects of the next US president's fiscal and trade policy. The sell-off in US treasury bonds started right after the 50 bps in rate cut delivered by the Fed mid-December and continued throughout the quarter.

### Outlook

Absolute yields remain attractive in Emerging Markets (EM) debt. The EMBI-Global Diversified is currently yielding 7.8%, 200 bps above its 10-year median of 5.8 %, and the yield 'excluding defaulted securities', i.e. excluding securities with strong upside potential from restructuring, was at 7.0% in December. However, index spreads are back to pre-Covid tightness. This is the result of the 'risk-on' backdrop in place for much of the last two years and the structural reforms undertaken by high yield issuers that led to many credit ratings upgrades since 2023. The EM sovereign debt index offers a 320 bps pick up over US Treasuries (USTs), 40 bps below the last 10-years' median spread level, but still 60 bps from the tightest level in the last decade reached in early 2018.

The picture looks similar in the corporate debt index, where yields are trading 100 bps wide of the last 10-year's median, but spreads are below the median after a long period of deleveraging and less issuance from non-investment grade issuers since 2019.

The exception is EM local bonds, where the index yield-to-maturity is just 10 bps wide of the 10-year median. However, index volatility has decreased quite a bit over time owing to the higher weight of Asia, and one-year EM local currency government bonds trade c. 3.0% above the year-end 2025 inflation forecast. This is one of the highest ex-ante real yields on record. It is also one of the widest ex-ante real interest rates spread versus Developed Markets (DM) on record.

In the Dollar debt market, after the significant spread compression observed in 2024 the BBB-rated sovereign credit spreads are trading 60 bps wider than A-rated credits, in line with the median. BB-rated credits trade only 80 bps wide to BBB versus a median of 110 bps. The pick-up is more generous in lower-rated tiers, with the 'CCC+ and below' category trading 1,300 bps wide to B-rated credits, but the risks are also greater. On the positive there is no candidate for default in 2025 among EMBI member countries, after a number of countries completed long-standing debt restructurings negotiations in 2024.

This means that active investors are playing for the carry, with fewer opportunities for capital gains. In this environment, the main returns drivers are i. credit improvement (i.e. ratings migration), ii. a drop in global interest rates from elevated levels, and iii. opportunistic investments in new issues paying a premium to secondary market levels. There is a strong case to be made that several countries implementing serious structural reforms, such as Argentina, Angola, Nigeria, Egypt, Ivory Coast, Türkiye and Pakistan will keep receiving upgrades from credit agencies. On the other hand countries with poor fundamentals such as Romania and Panama already trade at wide spread levels. Despite the rally there is still good credit quality differentiation in the market, in our view.

### Overview by investment theme

#### External Debt

The External Debt theme represents US dollar denominated EM sovereign and quasi-sovereign bonds. Ashmore SICAV Funds which are managed under this theme are primarily benchmarked against the JP Morgan EMBI Global Diversified Index, which returned 6.54% in the 12 months to 31 December 2024.

## Investment Manager's Report (unaudited) *continued*

### Overview by investment theme *continued*

#### External Debt *continued*

Argentina, Ukraine and Türkiye were amongst the best performers within the JP Morgan EMBI Global Diversified Index over the period. Argentina's GDP for Q3 dropped by -2.1%, ahead of consensus. The International Monetary fund (IMF) announced that negotiations for a new IMF program had begun, which would indicate the availability of new funds once the program is approved. The ongoing fiscal adjustment was evidenced by another primary surplus in November, the tenth in the past eleven months. The National Bank of Ukraine lifted its key policy rate by 50 bps to 13.5% in its December 2024, marking it only the second-rate hike since the Russian invasion. Challenges with energy shortages, logistical disruptions, and labour shortages remain ongoing concerns. Attention will be on the incoming US administration's foreign policy with hopes of an imminent ceasefire.

Venezuela, Colombia and Uruguay were the negative contributors within the JP Morgan EMBI Global Diversified Index over the period. Venezuelan President Nicolás Maduro claimed that the economy expanded by more than 9.0% in 2024 due to expanded production in the hydrocarbons sector. On the political front, Maduro will be sworn in for a third term despite accusations of fraud in the presidential election. All eyes are now on the incoming US administration and whether President Donald Trump will drive a harder line against the Maduro regime, potentially re-establishing sanctions. In Colombia, in its last meeting in Q4, the central bank cut the overnight lending rate to 9.50% from 9.75%, less than the 50 bps cut expected. CPI yoy inflation fell to 5.20% from 5.41%, slightly higher than expectations of a decline to 5.12%. Congress' rejected President Gustavo Petro's proposed tax reform, which sought to generate an additional COP 9.8tn (US\$ 2.24bn) to fund the 2025 budget. As a result, the COP 523tn budget remains partially unfunded. President Gustavo Petro replaced Finance Minister Bonilla with Deputy Diego Guevara, who has been a key contact between Petro and Bonilla. As the window for reforms will close in the second half of 2025, ahead of the 2026 elections, execution risks for consolidating the fiscal deficit remain.

#### Local Currencies and Local Currency Bonds

Ashmore SICAV Funds which are managed under this theme are primarily benchmarked against the JP Morgan GBI-EM Global Diversified Index Net of Taxes, which returned -2.73% in the 12 months to 31 December 2024.

The South African Rand, Malaysian Ringgit and Chinese Yuan were amongst the best performers within the index over the period. In South Africa, the central bank cut the policy rate by 25 bps over Q4 to 7.75%. CPI yoy inflation for November printed at 2.9% versus 3.1% expected and 2.8% prior (the central bank target zone is 3.0-6.0%). Retail sales for October surprised to the upside, jumping to 6.3% yoy (versus 2.0% expected), however, GDP for Q3 was confirmed at 0.3% versus a growth of 1.1% expected. Positively, the current account balance surprised, while still negative, to the upside at -1.0% versus -1.7% expected. The Chinese Renminbi weakened in Q4. PBoC left the 1- and 5-year Loan Prime rates unchanged. CPI inflation fell to 0.2% yoy, while producer prices slightly improved to -2.5%. The Politburo, led by President Xi Jinping, shifted its stance on monetary policy for the first time in 14 years, adopting a "moderately loose" strategy and promising a "more proactive" fiscal policy and to stabilise property and stock markets.

The Brazilian Real, Mexican Peso and Colombian Peso were the negative contributors within the index over the period. The Brazilian Central Bank hiked its policy rate by 100 bps to 12.25%, as anticipated, but pledged to hike it by another 200 bps over the next two consecutive meetings on 30 January and 20 March 2025 to 14.25%. The forward guidance was more hawkish than market expectations. Congress approved a watered-down version of Brazil's spending cut proposals this week. President Lula said the government would 'remain vigilant' about 'further measures' to cut spending, but this was not enough to stop further volatility in Brazilian assets. The Mexican Peso has been in focus since the US election outcome and the prospects of increased tension between Mexico and the US. In addition, Moody's revised Mexico's Baa2 sovereign credit outlook from stable to negative, citing risks from recent constitutional changes that could undermine checks and balances within the judiciary. According to the agency, this shift poses potential harm to the country's economic and fiscal stability. A downgrade would still leave the country in investment grade territory. Mexico is rated BBB by S&P and BBB- by Fitch. The finance minister posted the 2025 budget with an expected deficit reduction from 5.9% to 3.9% of GDP. Public debt is projected at 51.4% of GDP. Growth is expected at 2.0-3.0% and inflation at 3.5%. The budget has a conservative oil price of US\$ 58 per barrel and foresees a US\$ 5.7bn support for state oil company Pemex.

#### Corporate Debt

Ashmore SICAV Funds which are managed under this theme are primarily benchmarked against the JP Morgan CEMBI Broad Diversified Index, which returned 7.63% in the 12 months to 31 December 2024.

# 1: Introduction

## Investment Manager's Report (unaudited) *continued*

### Overview by investment theme *continued*

#### Corporate Debt *continued*

The negative net supply for full year 2024 finished at US\$ -73bn which represents an improvement compared to the US\$ -155bn in 2023. China alone was responsible for US\$ -93bn of negative supply, which means that ex-China, the market registered a positive net supply of US\$ 20bn. For next year we expect net supply to be flat or even slightly negative. This assessment is supported by activity levels in Asia remaining muted, given the continued weakness in bonds from the China property sector, one of the largest sources of new supply historically. The impact of sanctions on Russia and the war in Ukraine, which were frequent issuers in Europe in previous years, will further reduce supply. This should provide a strong technical backdrop for performance next year.

China, Türkiye, Brazil and India were amongst the best performers within the index over the period. In China, more government stimulus was announced in Q4. The property market appears to have stabilised in Q4, with contracted sales up 49% quarter on quarter, albeit still lower by 15% when compared to same quarter last year. In Brazil, there has been significant monetary policy tightening as the Central Bank is struggling to bring inflation under control. Central bank had to hike rates by 100 bps in December, bringing the official rate to 12.25%. This has added to the pressure on the corporate sector. There were no negative contributors over the period for the benchmark.

We believe EM remain favourably positioned to weather the current geopolitical headwinds offering an attractive combination of higher average income given higher spreads and lower average duration compared to Developed Markets. Strong performance during 2023 and 2024 is likely to lead to improved investor flows into the asset class in 2025, in our view.

#### Equities

In EM equities, the MSCI EM Index returned 7.50%, the MSCI EM Small Cap Index returned 4.79% and the MSCI Frontier plus Select EM Index returned 9.68% in the 12 months to 31 December 2024.

The macroeconomic backdrop for Emerging Markets equities has been on an improving trajectory underpinned by strong global economic growth, typically disinflationary pressure and the prospect of an incremental monetary easing cycle. This paves the way for earnings strength to drive strong stock market returns. The potential for a change to US policy, with related implications on trade, inflation and interest rates, means there is now a wider fan of scenarios to factor for, although EM's fundamental strength could mean the Trump-effect on EM should not be exaggerated.

The largest headwind for EM over the last three years was China. We believe there has been a meaningful change in policy direction and enough evidence to show that policy makers have 'panicked' at the ongoing economic condition of the country. In contrast to prior episodes of policy support, these announcements signaled a much more significant and comprehensive package that included both monetary and fiscal policy support, as well as explicit policies designed to aid property prices and capital markets. Given prior disappointment of policy follow-through, we are closely assessing implementation, as well as its effectiveness in driving economic condition. Despite recent market moves, we believe that China remains meaningfully undervalued.

#### Sustainable Financial Disclosure Regulation ("SFDR") Disclosure

The information on the environmental and/or social characteristics for the Sub-Funds disclosing under Article 8(1) of SFDR as required by Article 50 (2) of SFDR RTS is disclosed in the Supplementary Information under section Sustainable Finance Disclosure Regulation (SFDR) in the Ashmore SICAV Annual Report for the year ended 31 December 2024.

# 1: Introduction

## Directors' Report (unaudited)

The Directors submit their Report together with the Company's Statement of Net Assets, Statement of Operations and Changes in Net Assets, Schedules of Investments and related notes for the year ended 31 December 2024, which have been prepared properly, in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

### The Company

Ashmore SICAV (the "Company") is incorporated as a société anonyme (public limited company) under the laws of the Grand-Duchy of Luxembourg and qualifies as an open-ended société d'investissement à capital variable (a "SICAV") and is authorised as an undertaking for collective investment in transferable securities under part I of the law dated 17 December 2010 on undertakings for collective investment (the "Law of 2010"), as amended by the law of 10 May 2016.

During the year, 4 Sub-Funds terminated operations, 11 share classes opened and 43 share classes terminated.

The net amount received from subscriptions and redemptions during the year was an outflow of US\$2,464,152,888 and the total net assets of the Company decreased by US\$2,525,588,643.

### Corporate Governance

The Board of the Company has considered the principles and recommendations of the ALFI Code of Conduct for Luxembourg Investment Funds (the "Code"). The Code can be found on the Association's website: [www.alfi.lu](http://www.alfi.lu).

The Board has put in place a framework for corporate governance which it believes is suitable for an investment company and which enables the Company to comply with the requirements of the Code, which sets out principles of good governance and a code of best practice.

### The Board

The Directors of the Company are responsible for the overall administration, control and management of the Company, including the determination of the investment objective and policies of each Sub-Fund. In particular, the Directors of the Company are responsible for the monitoring and the overall supervision and control of the Management Company.

To this effect, the Board may give board recommendations to the Management Company in relation to, without limitation, the structure, promotion, administration, investment management and distribution of the Company and the contents of any documentation relating to the Company (including but not limited to, the Prospectus and any marketing material).

**Steve Hicks** is the Ashmore Group plc ("Ashmore") nominated director on a number of Ashmore fund boards. From June 2010 until January 2014, he was the Ashmore Head of Compliance. Prior thereto he was Director, Group Compliance at the London listed private equity company, 3i Group plc. During his career, Steve, who is a qualified UK lawyer, has held a number of legal and compliance roles over a period of more than 25 years.

**Isabelle Lebbe** is partner with the law firm of Arendt & Medernach SA. She holds a master's degree in Law from the University of Liège (Belgium) and an Executive Master in Change (EMC) from INSEAD. She was admitted to the Luxembourg Bar in 1999. She chairs or sits at a number of committees and sub-committees established by the Association of Luxembourg Investment Funds ("ALFI").

**Matthew Hill** is the head of investment operations for the Ashmore Group. He is responsible for transaction processing, collateral management, corporate actions, proxy voting and external research. He also oversees subsidiary operations and is responsible for key strategic relationships within the Ashmore Group. He is a highly experienced operations leader, with more than 18 years' experience in the financial services industry, including 15+ years at Ashmore Group. He operates at a strategic level with a deep technical knowledge of fixed income, equities and FX markets and has extensive knowledge of emerging market operations. He holds a BSc Business Studies from the University of Wales – Swansea.

**Dennis Robertson** retired from KPMG in September 2013 after 35 years with the firm, throughout the Middle East and London and latterly including 24 years in Luxembourg. He has acted as an audit partner on many high-profile client mandates in the investment management industry, primarily in the traditional long-only UCITS space. Apart from being an audit partner, he has held several other senior management positions within the firm in Luxembourg, including Head of the Audit practice, Chairman of the Supervisory Board and 10 years as the firm's Risk Management and Ethics and Independence Partner. He has also represented the firm on the Global Investment Management Council. He is a graduate in Accountancy and Finance from Heriot Watt University in Edinburgh and has been a member of the Institute of Chartered Accountants of Scotland since 1977. He now acts as an independent director in the investment management industry in Luxembourg and is a member of the Institut Luxembourgeois des Administrateurs.

---

## Directors' Report (unaudited) *continued*

The Board holds Board meetings at least four times a year. At the Board meetings the Directors review the management of the Company's assets and all other significant matters so as to ensure that the Directors maintain overall control and supervision of the Company's affairs. The Board is responsible for the appointment and monitoring of all service providers to the Company. The Directors are kept fully informed of investment and financial controls and other matters that are relevant to the business of the Company and should be brought to the attention of the Directors.

The Directors are responsible for ensuring that the Company's Annual Report is prepared in accordance with Luxembourg GAAP and applicable legal and regulatory requirements.

### Internal Controls

The Board is ultimately responsible for the Company's systems of internal control and for reviewing their effectiveness. The Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Company. The Code requires Directors to conduct a review of the Company's systems of internal control, covering all controls, including financial, operational, compliance and risk management.

### Compliance Statement

During the year, the Company has complied with the principles of the Code.

## 5: Notes

### Notes to the Combined Financial Statements

#### 1. General

Ashmore SICAV (the “Company”) is incorporated as a société anonyme (public limited company) under the laws of the Grand-Duchy of Luxembourg and qualifies as an open-ended société d'investissement à capital variable (a “SICAV”). It is authorised as an undertaking for collective investment in transferable securities under part I of the law dated 17 December 2010 on undertakings for collective investment (the “Law of 2010”), as amended by the law of 10 May 2016.

The Company was incorporated under the laws of the Grand-Duchy of Luxembourg on 19 December 2002 for an unlimited period of time. It is registered under number B 90279 at the Register of Commerce at the District Court of Luxembourg.

The Memorandum and Articles of Association of the Company were published in the Mémorial, Recueil Spécial des Sociétés et Associations du Grand-Duché de Luxembourg (the “Mémorial”) and filed with the Registry of the Luxembourg District Court where they may be consulted and copies may be obtained upon the payment of Registry fees.

As at 31 December 2024, the Company comprised 26 active Sub-Funds (individually the “Sub-Fund” and collectively the “Sub-Funds”):

- Ashmore SICAV Emerging Markets Debt Fund
- Ashmore SICAV Emerging Markets Sovereign Debt Fund
- Ashmore SICAV Emerging Markets Sovereign Investment Grade Debt Fund
- Ashmore SICAV Emerging Markets Local Currency Bond Fund
- Ashmore SICAV Emerging Markets Local Currency Bond Fund 2
- Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund
- Ashmore SICAV Emerging Markets Total Return Fund
- Ashmore SICAV Emerging Markets Total Return Debt Fund 2
- Ashmore SICAV Emerging Markets Investment Grade Total Return Fund
- Ashmore SICAV Emerging Markets Frontier Blended Debt Fund
- Ashmore SICAV Emerging Markets Multi-Asset Fund
- Ashmore SICAV Emerging Markets Corporate Debt Fund
- Ashmore SICAV Emerging Markets Investment Grade Corporate Debt Fund
- Ashmore SICAV Emerging Markets Asian High Yield Debt Fund
- Ashmore SICAV Emerging Markets Short Duration Fund
- Ashmore SICAV Emerging Markets Investment Grade Short Duration Fund

- Ashmore SICAV Emerging Markets Equity ex China Fund
- Ashmore SICAV Emerging Markets Shariah Active Equity Fund

During the year, 2 Sub-Funds were launched, the Ashmore SICAV Emerging Markets Frontier Blended Debt Fund on 2 December 2024 and the Ashmore SICAV Emerging Markets Equity ex China Fund on 16 July 2024 and 4 Sub-Funds were terminated, the Ashmore SICAV Emerging Markets High Yield Corporate Debt Fund on 29 April 2024, the Ashmore SICAV Emerging Markets Corporate Debt ESG Fund on 16 July 2024, the Ashmore SICAV Emerging Markets Absolute Return Debt Fund on 1 October 2024 and the Ashmore SICAV Global Liquidity US\$ Money Market Fund on 29 November 2024.

The Ashmore SICAV Global Liquidity US\$ Money Market Fund qualified as a short-term Low Volatility NAV Money Market Fund (“LVNAV”) under the Money Market Fund Regulation (the “Regulation”).

## Notes to the Combined Financial Statements *continued*

### 1. General *continued*

#### Share class information

The Sub-Funds may contain the following Share class currencies:

<b>Institutional</b>	<b>Institutional II</b>	<b>Institutional III</b>	<b>Retail</b>
AUD, BRL, CAD, CHF, DKK, EUR, EUR (unhedged)*, GBP, GBP (unhedged), HKD (unhedged), MXN, NOK, SEK, SGD, US\$	JPY, JPY (unhedged)**	AUD, BRL, CAD, CHF, DKK, EUR, GBP, GBP (unhedged), HKD (unhedged), MXN, NOK, SEK, SGD, US\$	AUD, BRL, CAD, CHF, DKK, EUR, GBP, GBP (unhedged), HKD (unhedged)***, JPY, MXN, NOK, SEK, SGD, US\$
<b>Retail II</b>	<b>Z</b>	<b>Z 2</b>	<b>Z 3</b>
AUD, BRL, CAD, CHF, DKK, EUR, GBP, HKD (unhedged), MXN, NOK, SEK, SGD, US\$	CHF, EUR, GBP, GBP (unhedged)****, HKD (unhedged), SGD, US\$	BRL, CHF, EUR, GBP, GBP (unhedged)****, HKD (unhedged), JPY, JPY (unhedged)**, SGD, US\$	AUD, BRL, CAD, CHF, DKK, EUR, EUR (unhedged), GBP, GBP (unhedged)****, HKD (unhedged), MXN, NOK, SEK, SGD, US\$

\* This EUR (unhedged) Class is only available within the Ashmore SICAV Emerging Markets Local Currency Bond Fund and the Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund.

\*\* This JPY (unhedged) Class is only available within the Ashmore SICAV Emerging Markets Sovereign Debt Fund, the Ashmore SICAV Emerging Markets Sovereign Investment Grade Debt Fund, and the Ashmore SICAV Emerging Markets Active Equity Fund.

\*\*\* This HKD (unhedged) Class is only available within the Ashmore SICAV Emerging Markets Local Currency Bond Fund and the Ashmore SICAV Emerging Markets Short Duration Fund.

\*\*\*\* This GBP (unhedged) Class is only available within the Ashmore SICAV Emerging Markets Local Currency Bond Fund, the Ashmore SICAV Emerging Markets Frontier Equity Fund, the Ashmore SICAV Emerging Markets Active Equity Fund and the Ashmore SICAV Emerging Markets Equity Fund.

The Company also has the ability to issue Advisory Class Shares. These are only available in US\$ and are restricted to certain distributors used by the Management Company where a fee based advisory and/or discretionary client agreement has been entered into. The distributors then purchase Shares of the Company on behalf of their clients via advisory platforms. Advisory Class Shares are also available to any other investor at the discretion of the Investment Manager, acting as a delegate and under the responsibility of the Management Company. Currently no Advisory Class Shares of the Company are in issue.

As at 31 December 2024, none of the Shares were listed on Luxembourg Stock Exchange.

The following table presents Share class launches and terminations, which took place during the year under review:

<b>Sub-Fund</b>	<b>Classes launched</b>	<b>Classes terminated</b>	<b>Number of classes active as at 31 December 2024</b>
Ashmore SICAV Emerging Markets Debt Fund	–	Retail Class Shares (GBP) Income	20
Ashmore SICAV Emerging Markets Sovereign Debt Fund	–	Institutional Class Shares (CHF) Accumulation, Institutional Class Shares (EUR) Accumulation, Institutional Class Shares (GBP) Income and Z 2 Class Shares (US\$) Accumulation	9
Ashmore SICAV Emerging Markets Sovereign Investment Grade Debt Fund	Institutional II Class Shares (JPY) Income	–	5
Ashmore SICAV Emerging Markets Local Currency Bond Fund	–	Institutional III Class Shares (US\$) Accumulation	29
Ashmore SICAV Emerging Markets Local Currency Bond Fund 2	–	–	2

Shares denominated in AUD, CAD, CHF, DKK, EUR (with the exception of EUR unhedged), GBP (with the exception of GBP unhedged), HKD (with the exception of HKD unhedged), JPY (with the exception of JPY unhedged), MXN, NOK, SEK and SGD may, at the Investment Manager's absolute discretion, be hedged with respect to currency movements in relation to their currency of denomination against the US\$. In order to achieve this, the Investment Manager may, at its absolute discretion, engage in, for the exclusive account and cost of each of these Share classes, currency forwards, currency futures, currency option transactions and currency swaps, within the investment restrictions set out in the Prospectus, in order to preserve the current AUD, CAD, CHF, DKK, EUR, GBP, HKD, JPY, MXN, NOK, SEK and SGD value of the portion, in whole or in part, of the assets attributable to the relevant AUD, CAD, CHF, DKK, EUR, GBP, HKD, JPY, MXN, NOK, SEK and SGD Share classes that are invested in US\$ denominated assets.

As at 31 December 2024, all Share classes denominated in currencies other than US\$ were hedged, with the exception of the following Share classes:

- Institutional Class Shares (EUR unhedged) Income of the Ashmore SICAV Emerging Markets Local Currency Bond Fund and the Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund;
- Institutional II Class Shares (JPY unhedged) Accumulation of the Ashmore SICAV Emerging Markets Sovereign Debt Fund, the Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund and the Ashmore SICAV Emerging Markets Active Equity Fund;
- Institutional III Class Shares (AUD unhedged) Income of the Ashmore SICAV Emerging Markets Equity Fund;
- Institutional III Class Shares (EUR unhedged) Accumulation of the Ashmore SICAV Emerging Markets Local Currency Bond Fund;
- Retail Class Shares (HKD unhedged) Income of the Ashmore SICAV Emerging Markets Local Currency Bond Fund and the Ashmore SICAV Emerging Markets Short Duration Fund;
- Z Class Shares (GBP unhedged) Accumulation of the Ashmore SICAV Emerging Markets Active Equity Fund;
- Z 2 Class Shares (GBP unhedged) Accumulation of the Ashmore SICAV Emerging Markets Local Currency Bond Fund and the Ashmore SICAV Emerging Markets Frontier Equity Fund;
- Z 2 Class Shares (GBP unhedged) Income of the Ashmore SICAV Emerging Markets Local Currency Bond Fund; and
- Z 3 Class Shares (GBP unhedged) Accumulation of the Ashmore SICAV Emerging Markets Equity Fund.

## 5: Notes

### Notes to the Combined Financial Statements *continued*

#### 2. Principal accounting policies

##### a) Presentation of the combined financial statements

The combined financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

The combined financial statements of the Fund and each of its Sub-Funds have been prepared on a going concern basis, except for the Sub-Funds Ashmore SICAV Emerging Markets Absolute Return Debt Fund, the Ashmore SICAV Emerging Markets Corporate Debt ESG Fund, the Ashmore SICAV Emerging Markets High Yield Corporate Debt Fund and the Ashmore SICAV Global Liquidity US\$ Money Market Fund which terminated operations during the year.

This report is presented on the basis of the latest NAV calculated during the financial year (i.e. 31 December 2024).

##### b) Basis of combination

The combined financial statements of the Company and the financial statements of each Sub-Fund are expressed in US\$ (the "reference currency"). The Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets are the sum of the individual Statements of Net Assets and the sum of the individual Statements of Operations and Changes in Net Assets of each Sub-Fund adjusted to eliminate transactions and balances between Sub-Funds.

The combined financial statements include all the assets, liabilities and operations of the Company. Transactions between Sub-Funds (linked to investments in other Sub-Funds of the Company) are fully eliminated on combination but this has no impact on the results and financial positions of the individual Sub-Funds.

##### c) NAV adjustment

###### Swing pricing

The swing pricing mechanism has been applied across all Sub-Funds with the exception of Ashmore SICAV Global Liquidity US\$ Money Market Fund.

Shares of the Sub-Funds may suffer a reduction in value as a result of subscriptions, redemptions and/or conversions in and out of the Sub-Funds due to the transaction costs incurred in the purchase and sale of the underlying investments and the spread between the buying and selling prices. This is known as "dilution". In order to counter this and to protect Shareholders' interests, the Administrator, upon instruction from the Management Company, may apply "swing pricing" as part of its valuation policy. This will mean that in certain circumstances the Administrator, upon instruction from the Management Company, may make adjustments to the calculation of the NAVs per Share, to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

If on any Valuation Day the aggregate transactions in Shares of a Sub-Fund result in a net increase or decrease of Shares which exceeds a threshold of 5% of such Sub-Fund's NAV (or a threshold as determined by the Board of Directors and as applicable to all transactions) for that Sub-Fund, the Administrator upon instruction from the Management Company, shall apply an alternative NAV calculation method (to include such reasonable factors as they see fit) to the NAV per Share.

The NAV of the Sub-Fund may, therefore, be swung by an amount equal to the actual bid or offer spread. Such adjustments may vary from Sub-Fund to Sub-Fund based on normal dealing and other costs for the particular assets in which a Sub-Fund is invested, and will not normally exceed 2% of the original NAV per Share. However, the Board of Directors may decide to increase this adjustment limit above the 2% in exceptional circumstances to protect Shareholders' interests.

More information related to the swing pricing policy of the Company is available in the Prospectus.

No swing pricing mechanism was applied to the NAVs as at 31 December 2024.

##### Fair value adjustment

Fair value factors are applied to the valuation of equities in order to offer protection to existing/remaining investors within the Sub-Funds to ensure that the asset pricing within the NAV (price) of the Sub-Fund where a particular market is closed is in line with the expected market valuations of the assets when the NAV is struck.

A quantitative fair valuation model is supplied by Virtu to produce factors. Virtu monitors and back tests the factors for appropriateness. The factors may increase or decrease the valuation of a security and not all securities in the same exchange or market will necessarily be impacted to the same degree or even in the same direction.

Where available, factors are supplied daily by Virtu for equities and are applied by the Administrator to the daily NAV calculations.

---

## Notes to the Combined Financial Statements *continued*

### 2. Principal accounting policies *continued*

#### c) NAV adjustment *continued*

##### Fair value adjustment *continued*

As at 31 December 2024, the NAVs of equity securities were adjusted in this manner.

#### d) Valuation of investments of each Sub-Fund

Where possible, bonds are priced at bid prices, while equities are priced at the official close or last traded prices. If a security is traded on several stock exchanges, the valuation is made on the basis of the price on the main market on which the securities are traded. In the case of securities for which trading on a stock exchange is not significant, but which are bought and sold on a secondary market with regulated trading among security dealers (with the effect that the price is set on a market basis), the valuation may be based on this secondary market. Securities traded on a regulated market are valued in the same way as securities listed on a stock exchange.

Investments in open-ended funds are valued on the basis of the last available NAV of the units or shares of such funds.

Where investments are neither listed on any stock exchange nor traded on any regulated markets, these investments are valued in good faith based on information provided by any person whom the Board of Directors considers to be suitably qualified (an "Approved Person"). The Approved Persons include the Pricing Methodology & Valuation Committee of the Investment Manager and certain brokers. For more information on the fair value measurement of hard to price assets, see Supplementary Information, fair value measurement.

#### e) Valuation of financial derivative instruments

The value of financial derivative instruments not traded on a stock exchange or other regulated market is consistently determined for each different variety of contracts as follows:

Forward currency contracts are valued at market value based on the forward rate prevailing on the valuation date of the assets. The forward rate applied is based on WM/Reuters (4 p.m. GMT).

Interest rate swaps, currency swaps, swaptions and OTC options are valued based on daily counterparty prices verified against third-party pricing agents.

Futures contracts are valued using the last available price on the exchange where the contracts are traded.

#### f) Realised gain/loss on sales of investments in securities of each Sub-Fund

Realised gains or losses on the sale of investments in securities are determined on the basis of the weighted average acquisition cost with tax lots. Investments in securities are accounted for on a trade date basis, net of any applicable tax.

#### g) Foreign currency translation

Assets and liabilities expressed in currencies other than the reference currency of each Sub-Fund have been converted into the reference currency at the foreign exchange rate prevailing as at 31 December 2024.

Income and expenses in currencies other than the reference currency of each Sub-Fund are converted into the reference currency at the foreign exchange rate ruling at the transaction date. Realised and unrealised gains or losses on foreign currency translation are accounted for in the Combined Statement of Operations and Changes in Net Assets.

The acquisition cost of investments expressed in currencies other than the reference currency of each Sub-Fund is converted into the reference currency at the foreign exchange rate prevailing at the date of acquisition.

US\$	US dollar	=	18.870000	ZAR	South African rand
US\$	US dollar	=	27.880700	ZMW	Kwacha

##### h) Income and expenses

###### Allocation of expenses

Expenses can be allocated in one of three ways: (i) they can be allocated to a specific Sub-Fund if they are directly incurred by the Sub-Fund, (ii) they can be split evenly or by NAV when the expenses are shared across all the Sub-Funds in the SICAV or a sub-population thereof, or (iii) they can be split in proportion to the holdings that a certain population of Sub-Funds hold in an underlying investment.

###### Income

Interest income is accrued on a daily basis net of withholding tax. Dividend income from quoted equity investments and collective investment schemes is shown net of withholding tax deducted at source and is recorded as income on the ex-dividend date.

All Sub-Funds account for bond and bank interest, with the exception of non-performing assets, on an effective interest rate basis.

Interest income on non-performing assets, pay-in-kind instruments ("PIK") and PIK paired with profit participating notes ("PIK/PPN") is recognised on receipt unless the Investment Manager deems it appropriate to recognise income on an accruals basis.

## Notes to the Combined Financial Statements *continued*

### 2. Principal accounting policies *continued*

#### i) Equalisation

Income equalisation arrangements may be applied to some or all the Sub-Funds. These measures are designed to ensure that the income per Share which is distributed or deemed distributed in respect of a distribution period is not impacted by changes in the number of Shares in issue during that period. As a consequence, the first distribution received by a Shareholder in an impacted Sub-Fund following the purchase of Shares in that Sub-Fund will represent partly participation in income received by the Sub-Fund and partly a return of capital.

### 3. Management fees

The Investment Manager is entitled to receive from each Sub-Fund a management fee at an annual rate expressed as a percentage of the NAV of each Share class of each Sub-Fund and as determined in the Sub-Fund's Appendix of the Prospectus.

The management fees are calculated on the basis of the average NAV of the relevant class payable monthly in arrears. The annual rates applied were as follows:

	Institutional Class Shares %	Institutional II Class Shares %	Retail Class Shares %	Retail II Class Shares %	Z Class Shares %	Z 2 Class Shares %	Z 3 Class Shares %

\* Active as at 31 December 2024.

The Investment Manager is not entitled to management fees from the Institutional III Share classes.

On 9 November 2021, the Investment Manager agreed to a fee waiver on the Ashmore SICAV 2 Global Liquidity US\$ Money Market Fund (pre-merger), whereby the management fee on the Institutional Class Shares would be reduced to 0.00% (nil) per annum. The fee waiver is valid for a rolling period of three consecutive calendar months from the date of the agreement unless terminated by the Investment Manager (at any time upon seven days notice by the Investment Manager, with the acknowledgement of the Company).

Effective 15 December 2022, the management fee on the Institutional Class Shares of the Ashmore SICAV Global Liquidity US\$ Money Market Fund was amended to 0.2% per annum.

## 5: Notes

---

### Notes to the Combined Financial Statements *continued*

#### 4. Depositary fees

Under the terms of the Depositary Agreement with Northern Trust Global Services SE, the fees due to the Depositary are calculated as 0.01% per annum of the Company's net assets for the execution of its duties as Custodian and Paying Agent, and 0.01% per annum of the Company's net assets for the execution of its duties as Depositary.

Depending on the requirements of the jurisdictions in which the investments of the Sub-Funds are issued, the Depositary may use the services of one or more sub-custodians. The Depositary is entitled to reimbursement by the Company of reasonable out-of-pocket expenses incurred by it in performing its duties and the fees and charges of any correspondents and agents including any sub-custodians.

#### 5. Fund accounting fees

The fund accounting fees due to the Administrator are calculated as 0.02% per annum of each Sub-Fund's net assets.

#### 6. Management Company fees

The Management Company fees are calculated as 0.015% per annum of each Sub-Fund's net assets.

#### 7. Other operating expenses

Other operating expenses represent amounts paid by the Company relating to the operations of the Sub-Funds. They include legal fees, audit fees, the cost of printing and distributing the prospectuses, Directors' fees, Directors' insurance fees, financial servicing fees, regulatory fees and other professional fees. They also include fees in connection with obtaining or maintaining any registration or authorisation of the Company with any governmental agency or stock exchange as well as the cost of publication of information, bank charges and other miscellaneous expenses.

The total compensation paid to the Directors for the year ended 31 December 2024 was US\$ 126,564.

#### 8. Taxation

Under Luxembourg law, the Company is not subject to any taxes on income. However, the Company is subject to the "Taxe d'abonnement" or "Subscription tax" of 0.01% per annum for all net assets attributable to Institutional, Institutional II and Institutional III, as well as any net assets in Sub-Funds whose exclusive object is collective investment in money market instruments and the placing of deposits with credit institutions; and 0.05% per annum for all net assets attributable to Retail, Retail II, Z, Z 2 and Z 3 Class Shares. This tax is payable quarterly and is calculated on the basis of the NAV of each Share class at the end of the relevant calendar quarter.

No subscription tax is paid on the assets held by the Sub-Funds in other undertakings for collective investment already subject to that tax in Luxembourg.

Exemption from subscription tax is available for Share classes which:

- are reserved for one or more Institutional Investors; and
- whose exclusive object is the collective investment in money market instruments and the placing of deposits with credit institutions; and
- where the weighted residual maturity of the portfolio does not exceed 90 days; and
- which have the highest possible rating of a recognised rating agency.

#### 9. Transaction costs

Transaction costs represent costs incurred by the Company in relation to the purchase and sale of transferable securities and costs incurred by the Company in relation to trade communication services. For further information on transaction costs, please refer to Supplementary Information – Direct transaction costs.

#### 16. Commitments

In relation to its investments, the Company may from time to time agree to indemnify and/or pre-fund trustees or other agents, either solely or alongside other creditors on a several basis. Generally, such agreements do not have a termination date. The Directors are not aware of and do not currently expect any claims to be made against the Company under any such indemnity or pre-funding agreements.

#### 17. Liquidated Sub-Funds

The Ashmore SICAV Emerging Markets Volatility-Managed Local Currency Bond Fund (terminated on 11 July 2023) and the Ashmore SICAV Emerging Markets Local Currency Bonds (Broad) Fund (terminated on 26 October 2022), have not yet been wound down as both Sub-Funds have Rubles which cannot be repatriated or distributed until Russian sanctions have been lifted.

---

## Notes to the Combined Financial Statements *continued*

### 18. Significant events during the year

Effective 10 January 2024, Matthew Hill has been appointed as Director of the Company replacing Juraj Pekar.

The Ashmore SICAV Emerging Markets Equity ex China Fund launched on 16 July 2024.

The Ashmore SICAV Emerging Markets Frontier Blended Debt Fund launched on 2 December 2024.

The Ashmore SICAV Emerging Markets High Yield Corporate Debt Fund terminated operations on 29 April 2024.

The Ashmore SICAV Emerging Markets Corporate Debt ESG Fund terminated operations on 16 July 2024.

The Ashmore SICAV Emerging Markets Absolute Return Debt Fund terminated operations on 1 October 2024.

The Ashmore SICAV Global Liquidity US\$ Money Market Fund terminated operations on 29 November 2024.

Effective 31 December 2024, the Company withdrew its shares from the official list of Stock Exchange and from trading on the regulated market of the Luxembourg Stock Exchange ("LuxSE"). The last day of trading was on 30 December 2024.

There were no other significant events during the year.

### 19. Subsequent events

There were no significant events subsequent to the year-end date that require adjustments to, or disclosures in, the combined financial statements.

## Supplementary Information (unaudited)

### Additional information concerning representation in Germany

Deutsche Bank AG, TSS post-IPO Services, Taunusanlage 12, 60325 Frankfurt am Main, acts as the German representative of the Company and carries out the function of the Company's paying agent in relation to Shares distributed in or from Germany.

### Additional information concerning representation in Switzerland

The Directors have appointed BNP PARIBAS, Paris, Zurich branch, Selnaustrasse 16, 8002 Zurich, as the Company's representative and paying agent for Switzerland. In accordance with Article 124 CISA, BNP PARIBAS, Paris, Zurich branch, represents the Company vis-à-vis the investors and the Swiss Financial Market Supervisory Authority FINMA.

For Shares distributed in or from Switzerland, the performance place is at the BNP PARIBAS, Paris, Zurich branch address. Investors can obtain the following information free of charge from the representative at the above address: the Prospectus, the Key Information Document ("KIDs") (both of which are also available for potential investors), the most recent audited annual and unaudited semi-annual reports, copies of the Articles of Incorporation and any amendments thereto, in German, and a list of the purchases and sales made on behalf of the Company.

Publications in respect of the foreign collective investment scheme are made in Switzerland on the electronic platform of fundinfo AG ([www.fundinfo.com](http://www.fundinfo.com)). The issue and the redemption prices or the NAV together with a footnote stating that these figures are "excluding commissions" are published daily on [www.fundinfo.com](http://www.fundinfo.com).

### Direct transaction costs

In accordance with the Statement of Recommended Practice (SORP) issued by the UK Pensions Research Accountants Group (PRAG) in November 2014, as amended, direct transaction costs incurred by UK Pension Schemes must be disclosed in their annual reports. Purchases and sales of investments made by Ashmore SICAV Sub-Funds are recorded net of direct transaction costs, which are included separately in "Transaction costs" in the Combined Statement of Operations and Changes in Net Assets.

Direct transaction costs are costs incurred to acquire financial assets or financial liabilities. These include fees and commissions paid to agents, advisers, brokers and dealers.

Direct transaction costs incurred by the Sub-Funds during the year ended 31 December 2024 have been detailed below:

<b>Sub-Fund</b>	<b>Total Transaction Costs US\$</b>
Ashmore SICAV Emerging Markets Multi-Asset Fund	39,022
Ashmore SICAV Emerging Markets Global Small-Cap Equity Fund	65,654
Ashmore SICAV Emerging Markets Frontier Equity Fund	376,106
Ashmore SICAV Emerging Markets Active Equity Fund	601,472
Ashmore SICAV Middle East Equity Fund	12,257
Ashmore SICAV Emerging Markets Equity Fund	452,761
Ashmore SICAV Emerging Markets Indonesian Equity Fund	7,138
Ashmore SICAV Emerging Markets Equity ESG Fund	106,218
Ashmore SICAV India Equity Fund	11,602
Ashmore SICAV Emerging Markets Equity ex China Fund	8,664
Ashmore SICAV Emerging Markets Shariah Active Equity Fund	45,920
	<b>1,726,814</b>

There were no direct transaction costs incurred by the other Sub-Funds during the year ended 31 December 2024.

In most instances there are no direct transaction costs on bonds, but in addition to the direct transaction costs disclosed above, indirect costs are incurred through the bid-offer spread. Investments in pooled vehicles may incur transaction costs on the purchase or sale of investments within those vehicles.

### Remuneration Disclosures

Ashmore Investment Management (Ireland) Limited ("AIMIL") is authorised by the Central Bank of Ireland, as a UCITS Management Company pursuant to the Regulations European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and as an Alternative Investment Fund Managers ("AIFM") pursuant to the European Union (Alternative Investment Fund Managers Directive) Regulations, 2013, as amended, consolidated or substituted from time to time.

AIMIL, a member of the Ashmore Group plc, recognises the important role played by sound risk management in protecting its stakeholders.

### Remuneration Disclosures (continued)

The remuneration policy and remuneration principles described therein are designed to align the risk taking behaviour of staff with AIMIL's risk appetite and ensure that AIMIL is able to attract, retain and motivate highly qualified staff in order to produce long-term value creation for shareholders.

The Board of AIMIL has primary responsibility for ensuring that the ultimate goal of having sound and prudent remuneration policies and structures is not improperly circumvented.

AIMIL is not "significant" with respect to its internal organisation in the context of the UCITS Regulations and AIFM Regulations and respective ESMA Guidelines and as such has not established a remuneration committee.

AIMIL's remuneration policy applies to "identified staff" who are staff members considered to have a material impact on AIMIL's risk profile. The remuneration policy sets out in detail how AIMIL categorises staff so as to include; senior management, risk takers, control functions and other well remunerated staff who have a material impact on the risk profiles of AIMIL or of the funds which it manages.

Under the remuneration policy, remuneration consists of all forms of payments or benefits made directly by, or indirectly, but on behalf of AIMIL, in exchange for professional services rendered by staff. This includes where appropriate:

- (i) all forms of payments or benefits paid by AIMIL; and/or
- (ii) any awards of shares in AIMIL's parent company.

The remuneration policy recognises in deciding the mix between fixed and variable remuneration of identified staff, AIMIL is mindful of the need to ensure that the basic pay of staff is adequate to remunerate the professional services rendered taking into account, inter alia, the level of education, the degree of seniority, the level and expertise and skills required and that variable remuneration is an important tool to incentivise staff.

The remuneration policy provides AIMIL with flexibility such that, in years where AIMIL or indeed Ashmore Group plc performs poorly, variable remuneration may be reduced or eliminated and the capital of AIMIL can be preserved. Because AIMIL is part of a group which is an Emerging Markets focussed investment management business, its revenues may be more volatile than other non-cyclical businesses. Variable remuneration allows AIMIL to reduce the risk that its capital base is eroded due to the need to pay fixed remuneration cost should revenues decline. For these reasons, AIMIL's ratio of variable pay to fixed pay may be higher than other businesses with more steady income streams.

When establishing and applying the total remuneration, inclusive of salaries and pension benefits for identified staff, AIMIL takes into account the general principles set out in the remuneration policy in a way and to the extent that is appropriate taking into account its size, internal organisation and the nature, scope and complexity of its activities.

Following the finalisation of both AIMIL's and Ashmore Group plc's annual financial statements and after the publication of Ashmore Group plc's annual results to the market, usually during September, AIMIL shall decide what, if any, variable compensation to award identified staff taking into account a number of factors set out in the remuneration policy and applicable legislation and regulation.

The AIMIL remuneration policy is reviewed and agreed at least annually by the Board of Directors of AIMIL.

### Delegation

In accordance with the ESMA Guidelines, where the applicable remuneration rules would otherwise have been circumvented, AIMIL sought to ensure that affected delegates (i.e. those entities to which investment activities have been delegated) are subject to regulatory requirements on remuneration that are "equally as effective" as those applicable under the ESMA Guidelines or that appropriate contractual agreements are in place to ensure that the delegation arrangements do not circumvent the remuneration requirements contained therein.

### Remuneration

The total staff remuneration of AIMIL for the year ended 30 June 2024 was as follows:

	Number of beneficiaries	Variable remuneration	Fixed remuneration	Total remuneration
Ashmore SICAV	8	EUR 275,801	EUR 843,333	EUR 1,119,134
Total AIMIL	8	EUR 275,801	EUR 843,333	EUR 1,119,134

## Supplementary Information (unaudited)

---

### UK Tax Reporting

The Sub-Fund Ashmore SICAV Global Liquidity US\$ Money Market Fund was not subject to the UK reporting fund regime.

UK reporting status is granted retrospectively by the UK taxation authorities. The UK taxation authorities approved the reporting status applications for the Share classes where the Company made applications for the year ended 31 December 2023.

The current list of Share classes with UK reporting status and the effective dates when they entered into the UK reporting fund regime can be found on the hmrc.gov.uk website.

The Board of Directors intends to apply to the UK taxation authorities for UK reporting status for the year ended 31 December 2024 and for subsequent years if the Board of Directors deems it appropriate to do so.

### Securities Financing Transaction Regulation (SFTR)

As at 31 December 2024, the Company did not hold any securities falling into the scope of the Regulation (EU) 2015/2365 on transparency of securities financing transactions (“SFTs”) and of reuse.

### Sustainable Finance Disclosure Regulation (SFDR)

On 6 June 2024, the investment objectives and policies of the Ashmore SICAV Emerging Markets Local Currency Bond Fund was amended and classified from Article 6 to Article 8 pursuant to the EU Sustainable Financial Disclosure Regulation (SFDR) effective 8 July 2024.

Additionally, on 11 November 2024, the Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund, the Ashmore SICAV Emerging Markets Investment Grade Short Duration Fund, the Ashmore SICAV Emerging Markets Global Small-Cap Equity Fund, the Ashmore SICAV Emerging Markets Frontier Equity Fund and the Ashmore SICAV Emerging Markets Active Equity Fund are classified from Article 6 to Article 8 pursuant to the EU Sustainable Financial Disclosure Regulation (SFDR) effective 11 December 2024.

### Environmental and social characteristics promoted by the ESG Sub-Funds

The following Sub-Funds comply with Article 6 requirements:

- Ashmore SICAV Emerging Markets Total Return Fund;
- Ashmore SICAV Emerging Markets Multi-Asset Fund;
- Ashmore SICAV Emerging Markets Asian High Yield Debt Fund;
- Ashmore SICAV Emerging Markets Short Duration Fund;
- Ashmore SICAV Middle East Equity Fund;
- Ashmore SICAV Emerging Markets Indonesian Equity Fund;
- Ashmore SICAV India Equity Fund and;
- Ashmore SICAV Emerging Markets Shariah Active Equity Fund.

The Ashmore SICAV Emerging Markets Investment Grade Total Return Fund complies with Article 7 requirements. The investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities. In addition, these Sub-Funds do not consider principle adverse impacts.

---

## Sustainable Finance Disclosure Regulation (SFDR) *continued*

### Environmental and social characteristics promoted by the ESG Sub-Funds *continued*

The following Sub-Funds comply with Article 8 requirements:

- Ashmore SICAV Emerging Markets Debt Fund;
- Ashmore SICAV Emerging Markets Sovereign Debt Fund;
- Ashmore SICAV Emerging Markets Sovereign Investment Grade Debt Fund;
- Ashmore SICAV Emerging Markets Local Currency Bond Fund;
- Ashmore SICAV Emerging Markets Local Currency Bond Fund 2;
- Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund;
- Ashmore SICAV Emerging Markets Total Return Debt Fund 2;
- Ashmore SICAV Emerging Markets Frontier Blended Debt Fund;
- Ashmore SICAV Emerging Markets Corporate Debt Fund;
- Ashmore SICAV Emerging Markets Corporate Debt ESG Fund;
- Ashmore SICAV Emerging Markets Investment Grade Corporate Debt Fund;
- Ashmore SICAV Emerging Markets Investment Grade Short Duration Fund;
- Ashmore SICAV Emerging Markets Global Small-Cap Equity Fund;
- Ashmore SICAV Emerging Markets Frontier Equity Fund;
- Ashmore SICAV Emerging Markets Active Equity Fund;
- Ashmore SICAV Emerging Markets Equity Fund and;
- Ashmore SICAV Emerging Markets Equity ESG Fund and;
- Ashmore SICAV Emerging Markets Equity ex China Fund.

The Prospectus explain the responsible investment approach adopted in relation to each Sub-Fund. This approach entailed the application of the ESG Scoring Process (as described in the Prospectus) and the exclusion of certain industry sectors at the pre-investment stage. Over the past year, the ESG Scoring Process and the Investment Manager's industry exclusion policies have been applied as described and the Ashmore SICAV Emerging Markets Sovereign Debt ESG Fund, the Ashmore SICAV Emerging Markets Total Return ESG Fund and the Ashmore SICAV Emerging Markets Equity ESG Fund only invested in those issuers satisfying the ESG Scoring Threshold (as defined in the Prospectus) and not excluded under the Investment Manager's industry exclusion policies. These pre-investment scores and industry sector exclusions have been formally reviewed to ensure that each issuer still meets the ESG Scoring Threshold and the industry sector exclusions are still complied with.

### Sustainable Finance Disclosure Regulation (SFDR) *continued*

#### Environmental and social characteristics promoted by the ESG Sub-Funds *continued*

This paragraph has been included pursuant to Article 11(1)(a) of EU Regulation (2019/2088) which requires the Management Company to describe the extent to which environmental and social characteristics of the Ashmore SICAV Emerging Markets Debt Fund, the Ashmore SICAV Emerging Markets Sovereign Debt Fund, the Ashmore SICAV Emerging Markets Sovereign Investment Grade Debt Fund, the Ashmore SICAV Emerging Markets Local Currency Bond Fund, the Ashmore SICAV Emerging Markets Local Currency Bond Fund 2, the Ashmore SICAV Emerging Markets Investment Grade Local Currency Fund, the Ashmore SICAV Emerging Markets Total Return Debt Fund 2, the Ashmore SICAV Emerging Markets Frontier Blended Debt Fund, the Ashmore SICAV Emerging Markets Corporate Debt Fund, the Ashmore SICAV Emerging Markets Investment Grade Corporate Debt Fund, the Ashmore SICAV Emerging Markets Corporate Debt ESG Fund, the Ashmore SICAV Emerging Markets Investment Grade Short Duration Fund, the Ashmore SICAV Emerging Markets Global Small-Cap Equity Fund, the Ashmore SICAV Emerging Markets Frontier Equity Fund, the Ashmore SICAV Emerging Markets Active Equity Fund, the Ashmore SICAV Emerging Markets Equity Fund, the Ashmore SICAV Emerging Markets Equity ESG Fund and the Ashmore SICAV Emerging Markets Equity ex China Fund have been met.

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Debt Fund (the “Sub-Fund”)

**Legal entity identifier:** 549300P6B0GPQCHF9H17

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria and 2) the exclusion of exposure to corporates and Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below) except as set out below.

- 2) **Exclusion of exposure to corporates and quasi-sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments in corporates and quasi-sovereign issuers which are corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”) except as set out below.

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 89.72% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 14.8 out of 30.
- (ii) the average E score of the Sub-Fund was 4.8 out of 10.
- (iii) the average S score of the Sub-Fund was 4.9 out of 10.
- (iv) the average G score of the Sub-Fund was 5.1 out of 10.

- 2) 99.55% of the Sub-Fund’s investments in corporates and Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager’s industry exclusion policies.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

- 1) During the previous reference period (starting 1 January 2023 and ending 31 December 2023), 87.64% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores). During the current reference 89.72% of the Sub-Fund's investments met the ESG Scoring Threshold.
- 2) Similarly to the previous reference period, during the current reference period the overall ESG score of the Sub-Fund was 14.8 out of 30.
- 3) Similarly to the previous reference period, during the current reference period 99.55% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 1 January 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

Largest investments	Sector	% Assets	Country
Petroleos De Venezuela 8.5% 27/10/2020 (Regs)	OIL & GAS	4.36	Venezuela
Us Treasury Bill 0% 21/01/2025	SOVEREIGN	2.78	USA
Saudi International Bond 5% 16/01/2034 (Regs)	SOVEREIGN	1.53	Saudi Arabia
Petroleos Mexicanos 7.69% 23/01/2050	OIL&GAS	1.37	Mexico
Petronas Capital Ltd 4.55% 21/04/2050 (Regs)	OIL&GAS	1.25	Malaysia
Republic Of Nigeria 7.625% 28/11/2047 (Regs)	SOVEREIGN	1.21	Nigeria
Republic Of Argentina Step 09/07/2030	SOVEREIGN	1.14	Argentina
State Of Qatar 4.817% 14/03/2049 (Regs)	SOVEREIGN	1.14	Qatar
Republic Of Venezuela 11.95% 05/08/2031 (Regs)	SOVEREIGN	1.06	Venezuela
Republic Of Kazakhstan 4.714% 09/04/2035 (Regs)	SOVEREIGN	1.00	Kazakhstan
Gaci First Investment Co 5.25% 29/01/2034 (Regs)	INVESTMENT COMPANIES	0.98	Saudi Arabia
Petroleos Mexicanos 6.75% 21/09/2047	OIL&GAS	0.97	Mexico
Rep Of South Africa 4.3% 12/10/2028	SOVEREIGN	0.94	South Africa
Republic Of Peru 8.75% 21/11/2033	SOVEREIGN	0.91	Peru
Dominican Republic 4.875% 23/09/2032 (Regs)	SOVEREIGN	0.90	Dominican Republic

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 January 2024 – 31 December 2024

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

As at 31 December 2024, 89.72% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

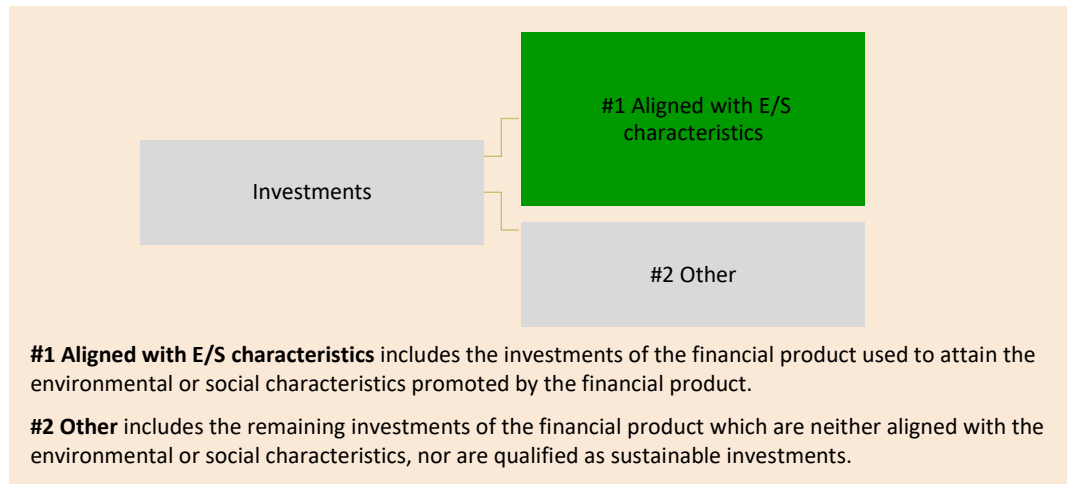

**Asset allocation** describes the share of investments in specific assets.

As at 31 December 2024, the Sub-Fund also invested 3.25% of its NAV in cash and/or hedging instruments (for such hedging instruments calculated using mark to market) and 0% of its NAV in Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

As at 31 December 2024, 7.03% of the Sub-Fund's investments did not exhibit the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics). Such investments were held prior to the sub-fund transitioning from Article 6 to Article 8, and are held in the best interests of investors while the Investment Manager engages with the relevant issuers with respect to such investments.

● ***In which economic sectors were the investments made?***

As at 31 December 2024, the Sub-Fund's largest investments were in the Sovereign Bonds and Oil & Gas sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

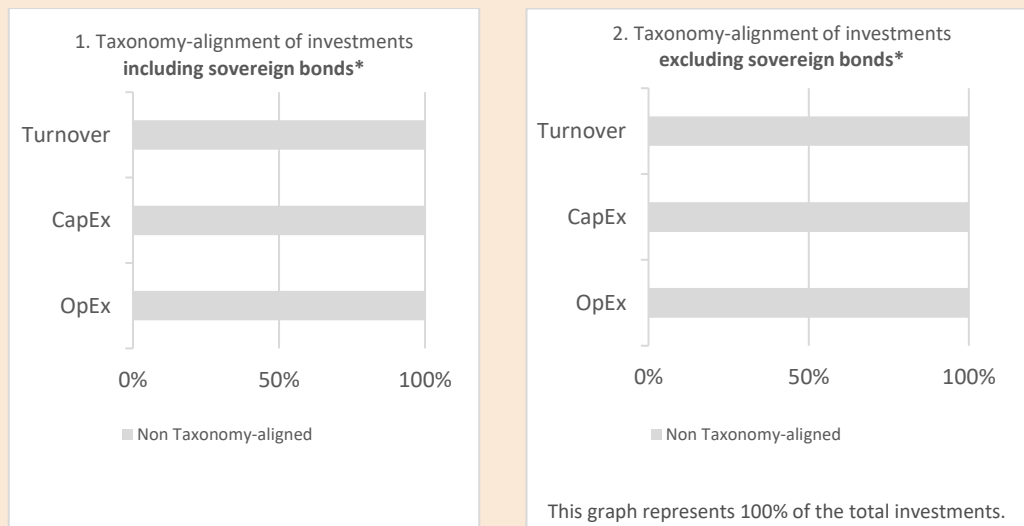

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

### What was the share of socially sustainable investments?

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds (“Other Assets”). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 1 January 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process, other than as stated above; and
2. excluded the sectors covered by the Investment Manager’s industry exclusion policies, other than as stated above.

### How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

#### ● *How does the reference benchmark differ from a broad market index?*

Not applicable.

#### ● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

#### ● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

#### ● *How did this financial product perform compared with the broad market index?*

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Ashmore SICAV Emerging Markets Sovereign Debt Fund (the “Sub-Fund”)

Legal entity identifier: 549300F36CDUDGLWDE95

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process except as set out below.
- 2) **Reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”) except as set out below.

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 92.63% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 14.9 out of 30.
- (ii) the average E score of the Sub-Fund was 4.8 out of 10.
- (iii) the average S score of the Sub-Fund was 5.0 out of 10.
- (iv) the average G score of the Sub-Fund was 5.1 out of 10.

- 2) 99.77% of the Sub-Fund’s investments in Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 22.43% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager’s industry exclusion policies.

● **...and compared to previous periods?**

- 1) During the previous reference period (starting 1 January 2023 and ending 31 December 2023), 85.01% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the “E”, “S” or “G” combined scores). During the current reference 92.63% of the Sub-Fund’s investments met the ESG Scoring Threshold.
- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 14.8 out of 30 and as of 31 December 2024, the overall ESG score of the Sub-Fund was 14.9 out of 30.
- 3) During the previous reference period, 99.50% of the Sub-Fund’s investments in corporates were in compliance with the Investment Manager’s industry sector exclusion policies. During the current reference period, 99.77% of the Sub-Fund’s investments in corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— — — Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Dominican Republic 4.875% 23/09/2032 (Regs)	SOVEREIGN	0.97	Dominican Republic

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 1 January 2024 – 31 December 2024.

### What was the proportion of sustainability-related investments?

#### ● What was the asset allocation?

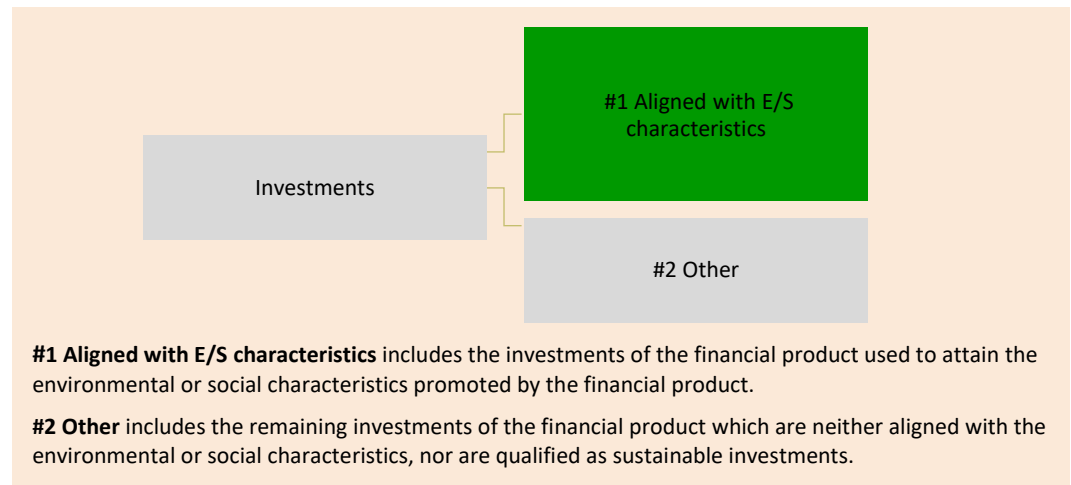

As at 31 December 2024, 92.63% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 1.36% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which

Asset allocation describes the share of investments in specific assets.

were excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics (#2 Other).

As at 31 December 2024, 6.01% of the Sub-Fund’s investments did not exhibit the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics). Such investments were held prior to the sub-fund transitioning from Article 6 to Article 8, and continue to be held in the best interests of investors while the Investment Manager engages with the relevant issuers with respect to such investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The Sub-Fund’s largest investments were in the Sovereign Bonds and Oil & Gas sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("Other Assets"). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 1 January 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process, except as set out above; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies, except as set out above.

## How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Sovereign Investment Grade Debt Fund (the “Sub-Fund”)

**Legal entity identifier:** 549300SZQMRX3J7PDK81

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process except as set out below.

- 2) **Reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”) except as set out below.

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 97.81% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 16.7 out of 30.
- (ii) the average E score of the Sub-Fund was 5.1 out of 10.
- (iii) the average S score of the Sub-Fund was 5.7 out of 10.
- (iv) the average G score of the Sub-Fund was 5.9 out of 10.

- 2) 98.05% of the Sub-Fund’s investments in Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 32.18% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

- 1) During the previous reference period, (starting 1 January 2023 and ending 31 December 2023), 97.93% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores) during the current reference. In the current reference period 97.81% of the Sub-Fund's investments met the ESG Scoring Threshold.
- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 17.0 out of 30 and as of 31 December 2024, the overall ESG score of the Sub-Fund was 16.7 out of 30.
- 3) In the previous reference period, 98% of the Sub-funds Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies. During the current reference period 98.05% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 January 2024 – 31 December 2024.

### What was the proportion of sustainability-related investments?

#### ● What was the asset allocation?

As at 31 December 2024, 97.81% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 2.19% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which

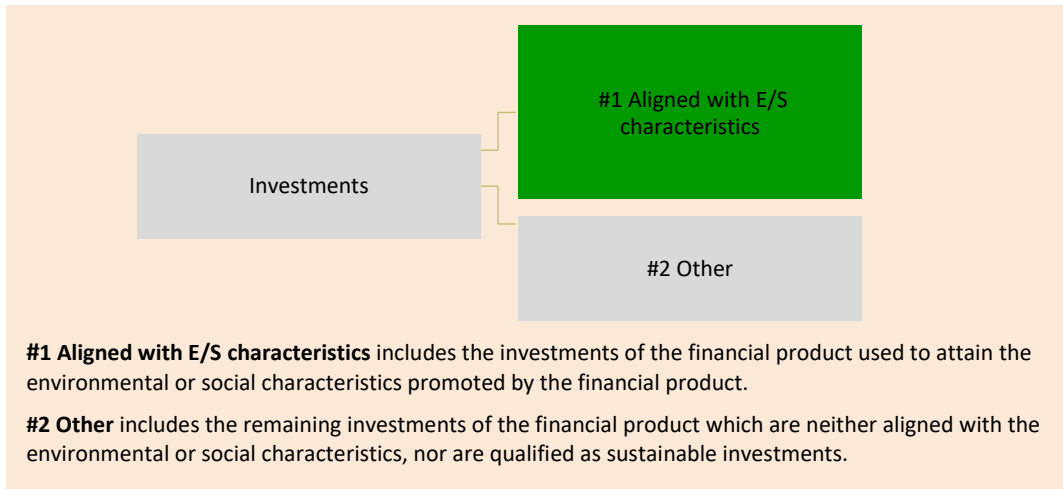

**Asset allocation** describes the share of investments in specific assets.

were excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The Sub-Fund’s largest investments were in the Sovereign Bonds sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("Other Assets"). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 1 January 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process, other than as stated above; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies, other than as stated above.

## How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How did this financial product perform compared with the reference benchmark?***  
Not applicable.
- ***How did this financial product perform compared with the broad market index?***  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Ashmore SICAV Emerging Markets Local Currency Bond Fund (the “Sub-Fund”)

Legal entity identifier: 549300XN3TSDT577QM40

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>
<input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”).

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 98.20% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 16.5 out of 30.
- (ii) the average E score of the Sub-Fund was 5.3 out of 10.
- (iii) the average S score of the Sub-Fund was 5.6 out of 10.
- (iv) the average G score of the Sub-Fund was 5.6 out of 10.

- 2) 100% of the Sub-Fund’s investments in issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 0% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager’s industry exclusion policies.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Not applicable.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore’s ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 8 July 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 8 July 2024 – 31 December 2024

Largest investments	Sector	% Assets	Country

India Government Bond 7.54% 23/05/2036	SOVEREIGN	1.41	South Africa

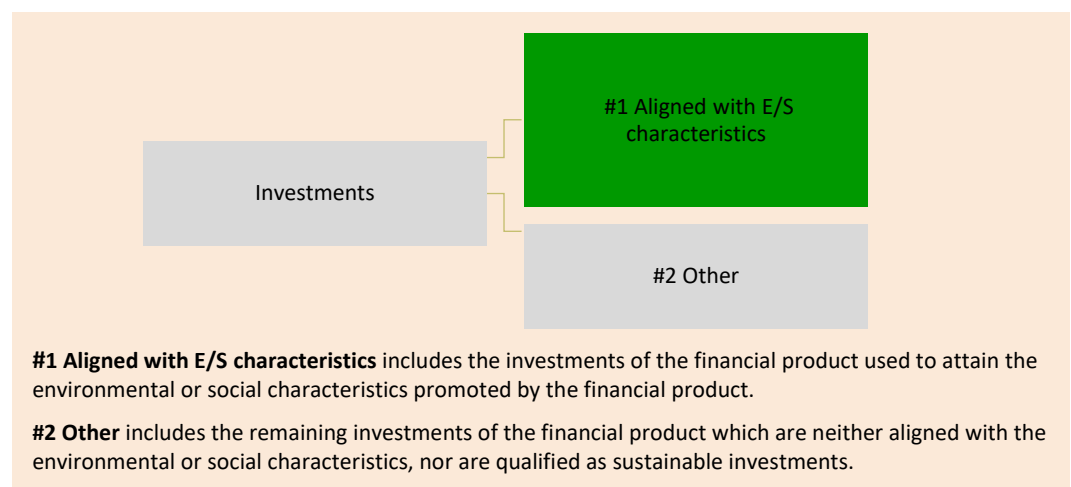

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

As at 31 December 2024, 98.20% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 1.80% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **In which economic sectors were the investments made?**

The Sub-Fund’s largest investments were in Sovereign Bonds.

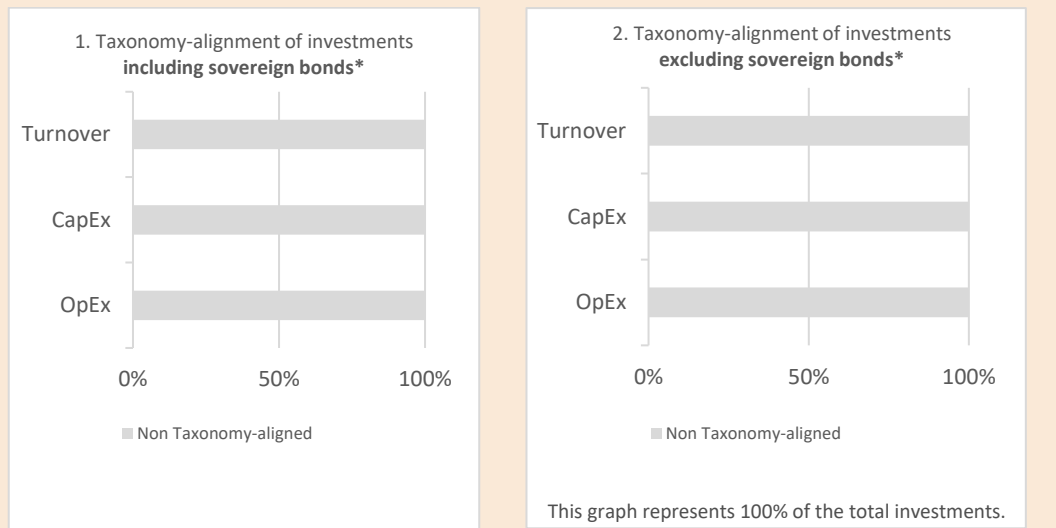

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds (“Other Assets”). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

For the period starting 8 July 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager’s industry exclusion policies.

**How did this financial product perform compared to the reference benchmark?**

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform compared with the reference benchmark?***  
Not applicable.
- ***How did this financial product perform compared with the broad market index?***  
Not applicable.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Ashmore SICAV Emerging Markets Local Currency Bond Fund 2 (the “Sub-Fund”)

Legal entity identifier: 549300GKZ23KWBEOXY06

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”).

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 94.48% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 16.8 out of 30.
- (ii) the average E score of the Sub-Fund was 5.4 out of 10.
- (iii) the average S score of the Sub-Fund was 5.7 out of 10.
- (iv) the average G score of the Sub-Fund was 5.7 out of 10.

- 2) 100% of the Sub-Fund’s investments in Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 0% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

- 1) In the previous reference period (starting 1 January 2023 and ending 31 December 2023), 98.09% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores) during the current reference. During the current reference period, 94.48% of the Sub-Fund's investments met the ESG Scoring Threshold.
- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 17.2 out of 30 and as of 31 December 2024, the overall ESG score of the Sub-Fund was 16.8 out of 30.
- 3) Similarly to the previous reference period, during the current reference period 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— — — Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

### How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

### What were the top investments of this financial product?

For the period starting 1 January 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

Largest investments	Sector	% Assets	Country

Rep Of South Africa 8.75% 28/02/2048	SOVEREIGN	1.40	South Africa

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 January 2024 – 31 December 2024.

### What was the proportion of sustainability-related investments?

#### ● What was the asset allocation?

As at 31 December 2024, 94.48% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 5.52% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which

**Asset allocation** describes the share of investments in specific assets.

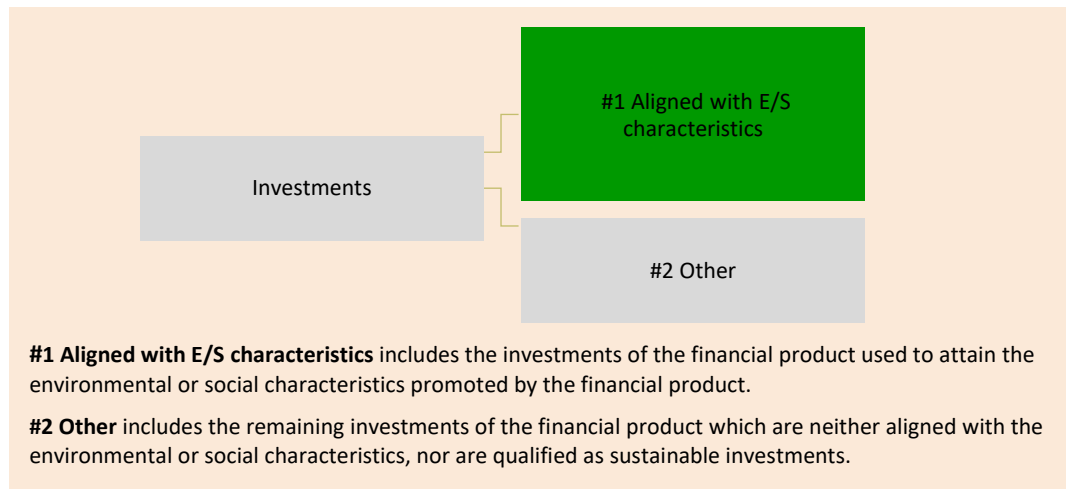

were excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The Sub-Fund’s largest investments were in Sovereign Bonds.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("**Other Assets**"). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 1 January 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

## How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”).

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 94.27% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 16.8 out of 30.
- (ii) the average E score of the Sub-Fund was 5.4 out of 10.
- (iii) the average S score of the Sub-Fund was 5.7 out of 10.
- (iv) the average G score of the Sub-Fund was 5.7 out of 10.

- 2) 100% of the Sub-Fund’s investments in Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 0% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 11 December 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

Largest investments	Sector	% Assets	Country
Mexican Bonos 8.5% 31/05/2029	SOVEREIGN	5.21	Mexico
China Government Bond 2.27% 25/05/2034 (240011)	SOVEREIGN	3.77	China
Poland Govt 5% 25/10/2034	SOVEREIGN	3.26	Poland
Mexican Bonos 7.75% 29/05/2031	SOVEREIGN	3.22	Mexico
Indonesia Govt Bond 6.875% 15/04/2029 Fr101	SOVEREIGN	2.86	Indonesia

Inter-American Devel Bk 7.35% 06/10/2030	MULTI-NATIONAL	1.79	Supranational

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 11 December 2024 – 31 December 2024.

## What was the proportion of sustainability-related investments?

### ● *What was the asset allocation?*

As at 31 December 2024, 94.27% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

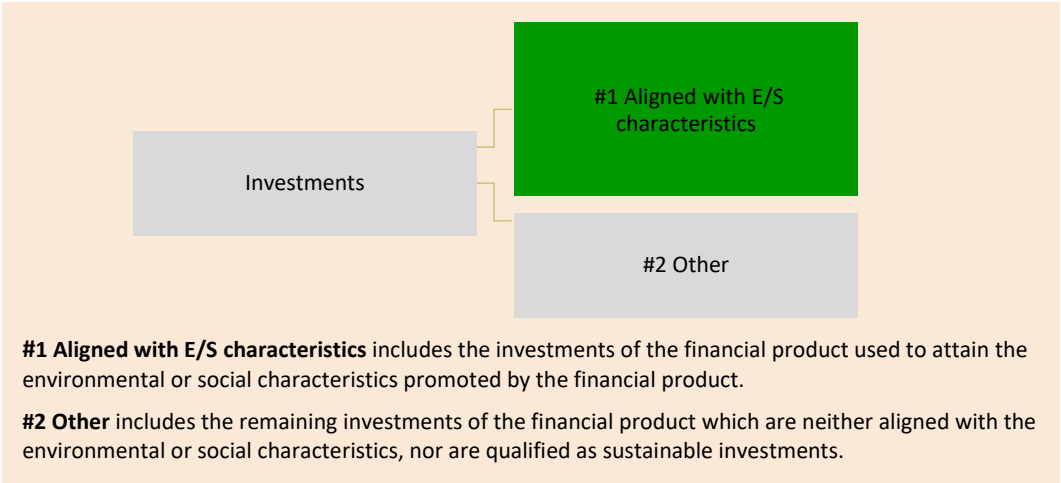

As at 31 December 2024, the Sub-Fund also invested 5.73% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The Sub-Fund’s largest investments were in Sovereign Bonds.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("**Other Assets**"). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 11 December 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

## How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

**Legal entity identifier:** 5493000EGF7GSXBH0Q61

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the exclusion of exposure to Corporates and Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to Corporates and Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “Investment Manager”).

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 99.22% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 16.4 out of 30.
- (ii) the average E score of the Sub-Fund was 5.4 out of 10.
- (iii) the average S score of the Sub-Fund was 5.4 out of 10.
- (iv) the average G score of the Sub-Fund was 5.5 out of 10.

- 2) 100% of the Sub-Fund’s investments in Corporates and Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 6.09% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

- 1) During the previous reference period (starting 1 January 2023 and ending 31 December 2023), 96.76% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores) during the current reference. During the current reference period, 99.22% of the Sub-Fund's investments met the ESG Scoring Threshold
- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 17.1 out of 30 and as of 31 December 2024, the overall ESG score of the Sub-Fund was 16.4 out of 30.
- 3) Similarly to the previous reference period, during the current reference period 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”).

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 98.95% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 15.5 out of 30.
- (ii) the average E score of the Sub-Fund was 5.0 out of 10.
- (iii) the average S score of the Sub-Fund was 4.9 out of 10.
- (iv) the average G score of the Sub-Fund was 5.6 out of 10.

- 2) 100% of the Sub-Fund’s investments in Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 3.96% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 2 December 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

Largest investments	Sector	% Assets	Country
Us Treasury 2.0% 15/02/2025	SOVEREIGN	9.99	United States

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2 December 2024 – 31 December 2024

## What was the proportion of sustainability-related investments?

### ● *What was the asset allocation?*

As at 31 December 2024, 98.95% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

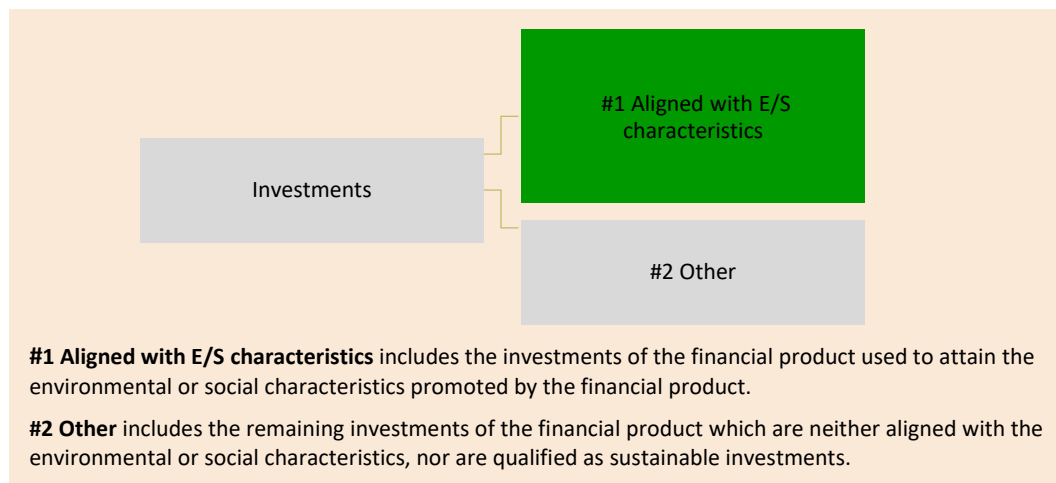

As at 31 December 2024, the Sub-Fund also invested 1.05% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The Sub-Fund’s largest investments were in Sovereign Bonds and Banking sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("**Other Assets**"). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 2 December 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

## How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Ashmore SICAV Emerging Markets Corporate Debt Fund (the “Sub-Fund”)

Legal entity identifier: 549300OZ5IPB2YUJ1N22

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria and 2) the exclusion of exposure to corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process except as set out below.

- 2) **Exclusion of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").

"ESG Scoring Process" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

### ● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 92.98% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 16.6 out of 30.
- (ii) the average E score of the Sub-Fund was 5.1 out of 10.
- (iii) the average S score of the Sub-Fund was 5.8 out of 10.
- (iv) the average G score of the Sub-Fund was 5.7 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"ESG Scoring Threshold" means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the "Permitted Bonds"), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

### ● **...and compared to previous periods?**

- 1) During reference period (starting 1 January 2023 and ending 31 December 2023), 92.35% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

combined score of at least 4 according to the ESG Scoring Process on any of the “E”, “S” or “G” combined scores) during the current reference. During the current reference period 92.98% of the Sub-Fund’s investments met the ESG Scoring Threshold.

- 2) Similarly to the previous reference period, the overall ESG score of the Sub-Fund was 16.6 out of 30 as of 31 December 2024.
- 3) Similarly to the previous reference period, during the current reference period 100% of the Sub-Fund’s investments in corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 1 January 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 January 2024 – 31 December 2024.

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

As at 31 December 2024, 92.98% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 1.55% of its NAV in cash and/or hedging instruments (for such hedging instruments calculated using mark to market) and 0% of its

**Asset allocation** describes the share of investments in specific assets.

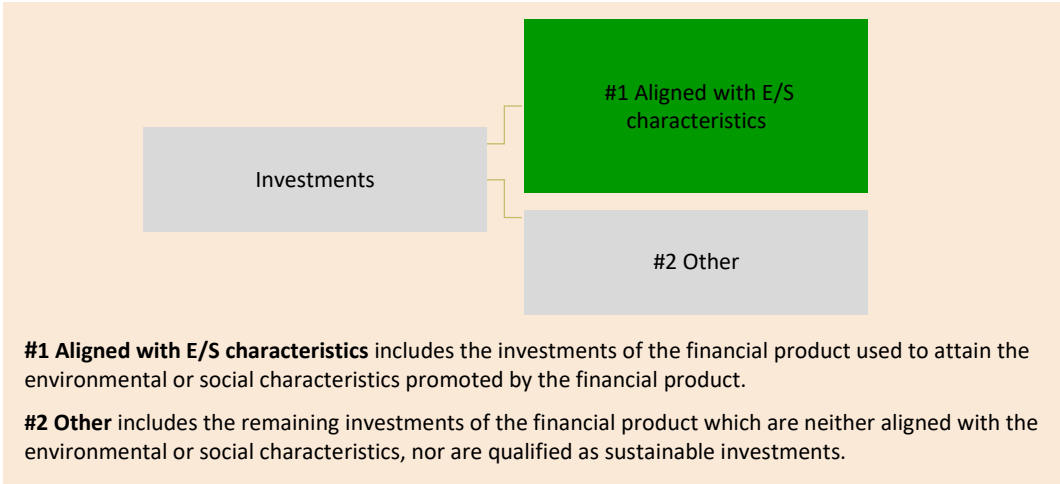

NAV in Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

As at 31 December 2024, 5.47% of the Sub-Fund's investments did not exhibit the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics). Such investments were held prior to the sub-fund transitioning from Article 6 to Article 8, and are held in the best interests of investors while the Investment Manager engages with the relevant issuers with respect to such investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

As at 31 December 2024, the Sub-Fund's largest investments were in the Oil & Gas and Banking sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

### **What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds (“Other Assets”). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

For the period starting 1 January 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process, except as stated above; and
2. excluded the sectors covered by the Investment Manager’s industry exclusion policies.

### **How did this financial product perform compared to the reference benchmark?**

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, 2) the reduction of exposure to issuers which are corporates operating in certain industry sectors and 3) being managed to be aligned with net zero by 2050. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Reduction of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").
- 3) **Being managed aligned with net zero by 2050 for corporates:** The Sub-Fund was managed in a way which was aligned with the expectations of the Net Zero Asset Manager Initiative (NZAMI) framework based on the Net Zero Asset Owner's Alliance target setting protocol methodology.

"ESG Scoring Process" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 95.95% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 30 June 2024:

- (i) the overall ESG score of the Sub-Fund was 19.7 out of 30.
- (ii) the average E score of the Sub-Fund was 6.7 out of 10.
- (iii) the average S score of the Sub-Fund was 6.4 out of 10.
- (iv) the average G score of the Sub-Fund was 6.5 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"ESG Scoring Threshold" means issuers that score a combined score of 3 or less according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

- 1) During the previous reference period (1 January 2023 – 30 June 2024), 100% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

scores), during the current reference period (1 January 2024 – 30 June 2024) 95.95% of the Sub-Fund’s investments met the ESG scoring threshold.

- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 19.5 out of 30 and as of 30 June 2024, the overall ESG score of the Sub-Fund was 19.7 out of 30.
- 3) Similar to the previous reference period, 100% of the Sub-Fund’s investments in corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

From 1 January 2024 to 30 June 2024 (top investments as of 30 June 2024):

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 January 2024 – 30 June 2024

## What was the proportion of sustainability-related investments?

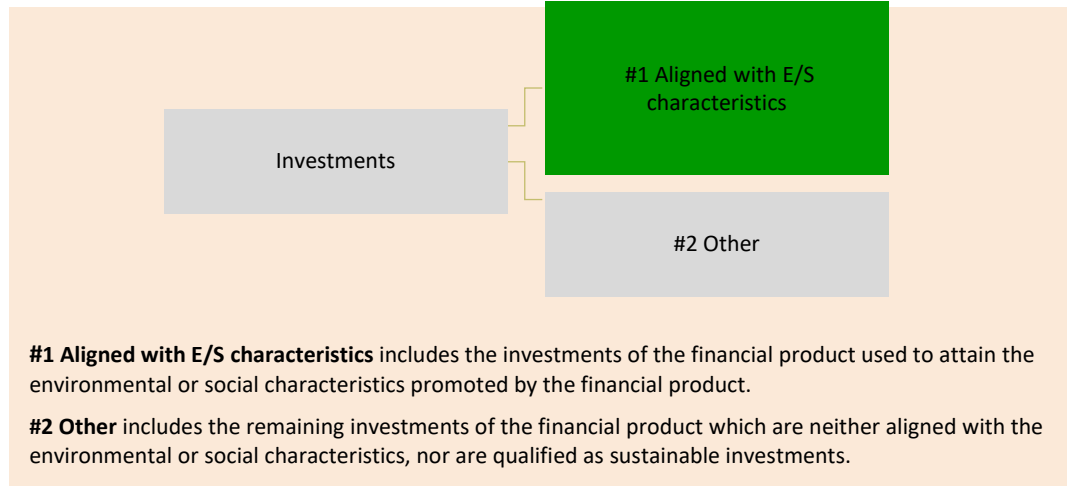

### ● What was the asset allocation?

As at 30 June 2024, 95.95% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 30 June 2024, the Sub-Fund also invested 4.05% of its NAV in cash and/or hedging instruments (for such hedging instruments calculated using mark to market), which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

As at 30 June 2024, 4.05% of the Sub-Fund’s investments did not exhibit the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics). Such investments were held prior to the sub-fund transitioning from Article 6 to Article 8 and continue to be held as they are subject to sanctions. They will be managed in the best interests of investors and will be sold once the sanctions are lifted.

● **In which economic sectors were the investments made?**

As at 30 June 2024, the Sub-Fund’s largest investments were in the Banking and Food sectors.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds (“Other Assets”). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For year ending 30 June 2024, the Sub-Fund:

1. excluded issuers rated below 4 based on the application of the ESG Scoring Process;
2. excluded the sectors covered by the Investment Manager’s industry exclusion policies; and
3. considered the NZAMI interim decarbonisation targets for 2025 as it related to corporates.

### How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Investment Grade Corporate Debt Fund (the “Sub-Fund”)

**Legal entity identifier:** 549300JO2Q32I7J5DM36

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria and 2) the exclusion of exposure to corporates and Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to corporates and quasi-sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments in corporates and quasi-sovereign issuers which are corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”).

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 94.51% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 17.3 out of 30.
- (ii) the average E score of the Sub-Fund was 5.3 out of 10.
- (iii) the average S score of the Sub-Fund was 6.0 out of 10.
- (iv) the average G score of the Sub-Fund was 6.0 out of 10.

- 2) 100% of the Sub-Fund’s investments in corporates and quasi-sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager’s industry exclusion policies.

● **...and compared to previous periods?**

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- 1) In the previous reference period (starting 1 January 2023 and ending 31 December 2023), 95.70% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores) during the current reference. In the current reference period, 94.51% of the Sub-Fund's investments met the ESG Scoring Threshold
- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 17.8 out of 30 and as of 31 December 2024, the overall ESG score of the Sub-Fund was 17.3 out of 30.
- 3) Similarly to the previous reference period, during the current reference period 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 January 2024 – 31 December 2024.

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

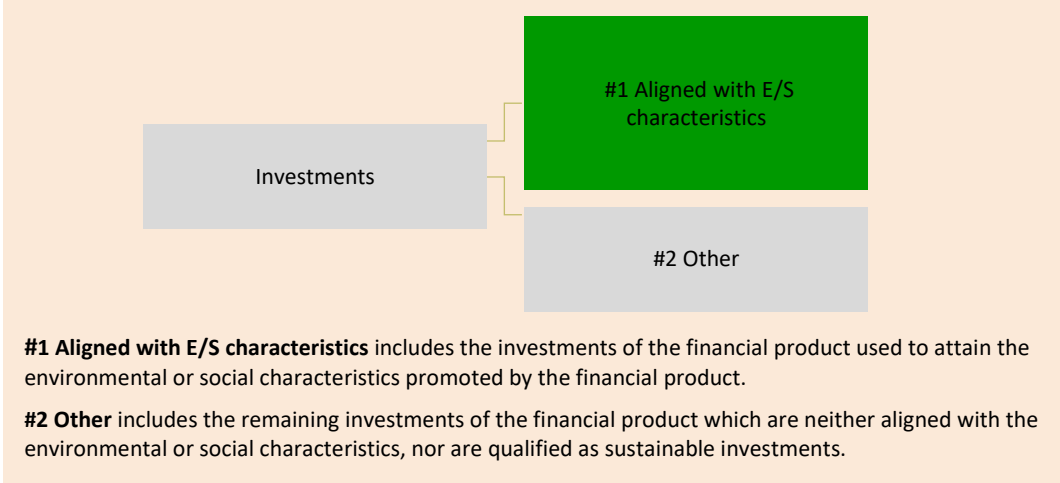

As at 31 December 2024, 94.51% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 5.49% of its NAV in cash and/or hedging instruments (for such hedging instruments calculated using mark to market) and 0% of its NAV in Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **In which economic sectors were the investments made?**

As at 31 December 2024, the Sub-Fund’s largest investments were in the Sovereign and Banking sectors.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

Yes:

In fossil gas     In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

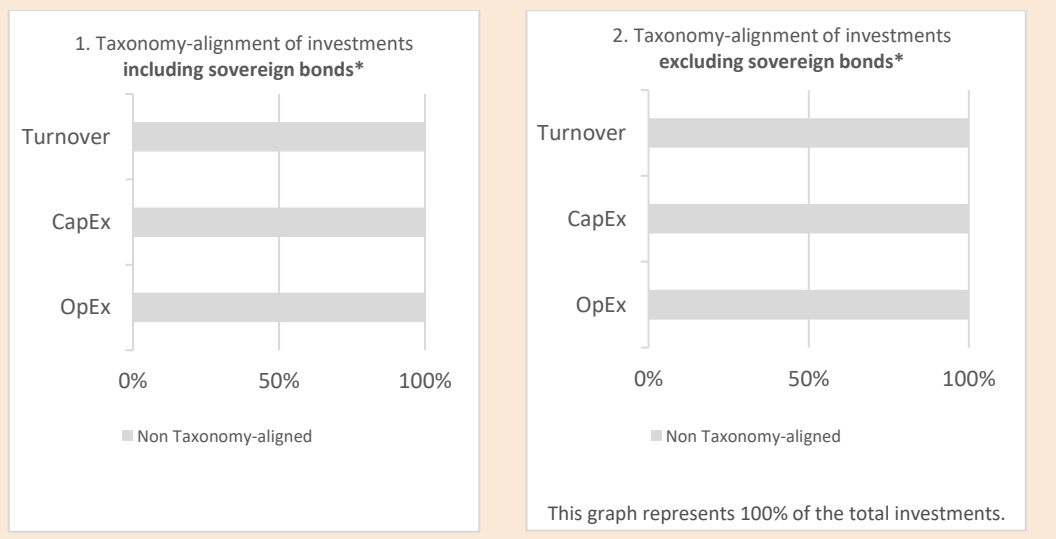

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

 **What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

 **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund, may on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("**Other Assets**"). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 1 January 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

## How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Investment Grade Short Duration Fund (the “Sub-Fund”)

**Legal entity identifier:** 222100W4HOFMWD1S0I66

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>
<input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Reduction of exposure to Quasi-Sovereign issuers which are corporates operating in certain industry sectors:** None of the Sub-Fund’s investments were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the “**Investment Manager**”).

“**ESG Scoring Process**” means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry (including Sovereigns and Quasi-Sovereigns, as applicable) by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

“**Quasi-Sovereign**” means an entity (including a local or regional governmental body) that is 100% guaranteed by a Sovereign or 100% directly or indirectly owned or controlled by a Sovereign.

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 97.73% of the Sub-Fund’s investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the “E”, “S” or “G” combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 17.7 out of 30.
- (ii) the average E score of the Sub-Fund was 5.4 out of 10.
- (iii) the average S score of the Sub-Fund was 6.2 out of 10.
- (iv) the average G score of the Sub-Fund was 6.1 out of 10.

- 2) 96.65% of the Sub-Fund’s investments in Quasi-Sovereign issuers which are corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

Quasi-Sovereign issuers represented 8.70% of the NAV of the Sub-Fund as of 31 December 2024.

“**ESG Scoring Threshold**” means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the “E”, “S” or “G” combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the “**Permitted Bonds**”), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 11 December 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 11 December 2024 – 31 December 2024

Largest investments	Sector	% Assets	Country
Petroleos Mexicanos 5.35% 12/02/2028	OIL&GAS	3.47	Mexico
Bank Muscat Saog 4.75% 17/03/2026 (Regs)	BANKS	2.99	Oman

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

As at 31 December 2024, 97.73% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

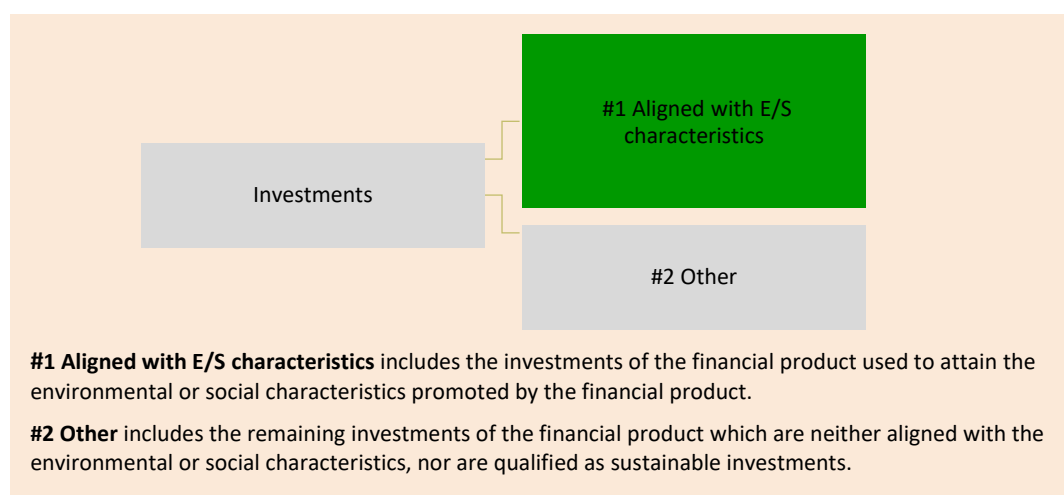

As at 31 December 2024, the Sub-Fund also invested 2.27% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The Sub-Fund’s largest investments were in the Oil & Gas and Banking sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

 **What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

 **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("**Other Assets**"). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 11 December 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

## How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***  
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***  
Not applicable.
- ***How did this financial product perform compared with the broad market index?***  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Global Small-Cap Equity Fund (the “Sub-Fund”)

**Legal entity identifier:** 54930048YJGQ4NFWCM36

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the exclusion of exposure to corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").

"**ESG Scoring Process**" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 99.00% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 19.1 out of 30.
- (ii) the average E score of the Sub-Fund was 6.4 out of 10.
- (iii) the average S score of the Sub-Fund was 6.5 out of 10.
- (iv) the average G score of the Sub-Fund was 6.3 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"**ESG Scoring Threshold**" means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the "**Permitted Bonds**"), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### **How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore’s ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

### **What were the top investments of this financial product?**

For the period starting 11 December 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 11 December 2024 – 31 December 2024

Largest investments	Sector	% Assets	Country

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

As at 31 December 2024, 99.00% of the Sub-Fund’s investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 1.00% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which were excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **In which economic sectors were the investments made?**

As at 31 December 2024, the Sub-Fund’s largest investments were in the IT and Industrial sectors.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds (“Other Assets”). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

For the period starting 11 December 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager’s industry exclusion policies.

**How did this financial product perform compared to the reference benchmark?**

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Frontier Equity Fund (the “Sub-Fund”)

**Legal entity identifier:** 549300SBRIJ5O6K87830

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It promoted <b>Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the exclusion of exposure to corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").

"ESG Scoring Process" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 95.00% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 17.9 out of 30.
- (ii) the average E score of the Sub-Fund was 5.8 out of 10.
- (iii) the average S score of the Sub-Fund was 6.3 out of 10.
- (iv) the average G score of the Sub-Fund was 6.8 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"ESG Scoring Threshold" means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the "Permitted Bonds"), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### **How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore’s ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

### **What were the top investments of this financial product?**

For the period starting 11 December 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 11 December 2024 – 31 December 2024

Largest investments	Sector	% Assets	Country
Jsc Kaspi.Kz Adr	Financials	5.80	Kazakhstan

Nova Ljubljanska B-Gdr Reg S	Financials	2.19	Slovenia
Gemadep Corp	Industrials	1.89	Vietnam

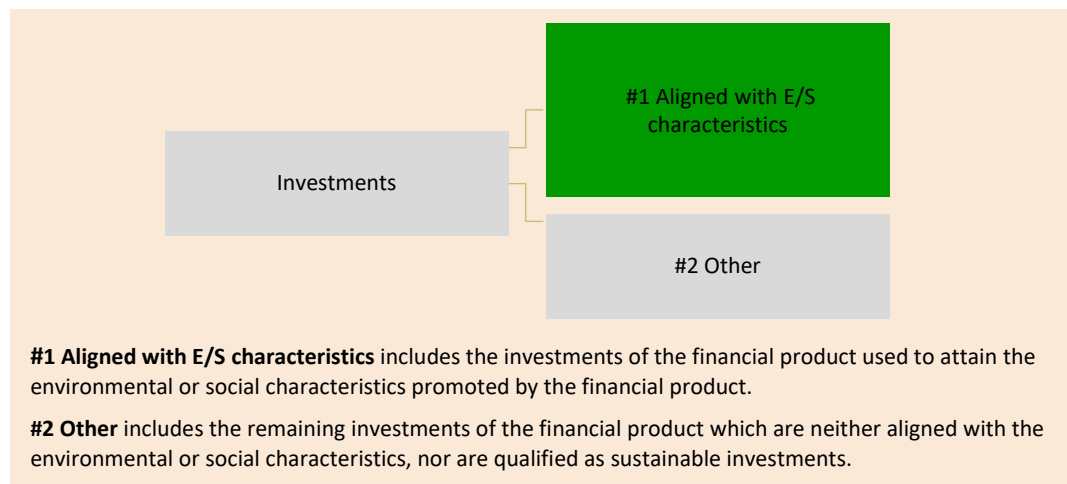

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

As at 31 December 2024, 95.00% of the Sub-Fund’s investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 5.00% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which were excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **In which economic sectors were the investments made?**

As at 31 December 2024, the Sub-Fund’s largest investments were in the Financial & IT sectors.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds (“Other Assets”). The Other Assets are excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

For the period starting 11 December 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager’s industry exclusion policies.

**How did this financial product perform compared to the reference benchmark?**

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Active Equity Fund (the “Sub-Fund”)

**Legal entity identifier:** 222100FVIZKHJK00135

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

**Yes**

It made **sustainable investments with an environmental objective:** \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

**No**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the exclusion of exposure to corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").

"ESG Scoring Process" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 98.96% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 19.8 out of 30.
- (ii) the average E score of the Sub-Fund was 6.5 out of 10.
- (iii) the average S score of the Sub-Fund was 7.0 out of 10.
- (iv) the average G score of the Sub-Fund was 6.8 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"ESG Scoring Threshold" means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the "Permitted Bonds"), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### **How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore’s ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 11 December 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

Largest investments	Sector	% Assets	Country
Taiwan Semiconductor Manufac	IT	9.77	Taiwan
Tencent Holdings Ltd	Communication	8.39	China

Sk Hynix Inc	IT	3.56	South Korea
Tata Consultancy Svcs Ltd	IT	3.35	India
Alibaba Group Holding Ltd	Consumer	3.24	China
Bank Central Asia Tbk Pt	Financials	2.83	Indonesia
Meituan-Class B	Consumer	2.69	China
Anta Sports Products Ltd	Consumer	2.5	China
H World Group Ltd-Adr	Consumer	2.4	China
Al Rajhi Bank	Financials	2.25	Saudi Arabia
Samsung Electronics Co Ltd	IT	2.04	South Korea
Delta Electronics Inc	IT	2.03	Taiwan

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 11 December 2024 – 31 December 2024

## What was the proportion of sustainability-related investments?

### ● *What was the asset allocation?*

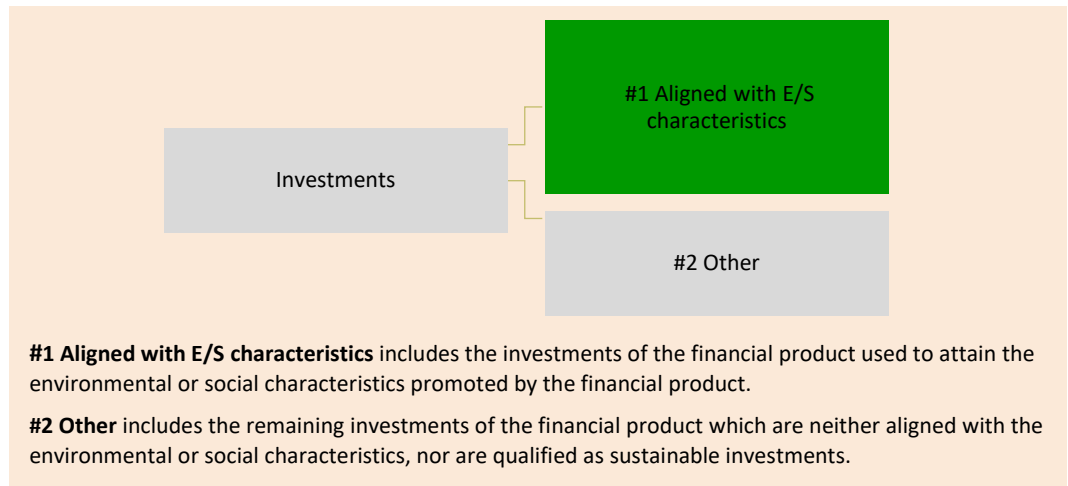

As at 31 December 2024, 98.22% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 1.04% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

As at 31 December 2024, 1.04% of the Sub-Fund's investments did not exhibit the environmental and/or social characteristics promoted by the Sub-Fund in accordance with

**Asset allocation** describes the share of investments in specific assets.

the binding elements of its investment strategy (#1 Aligned with E/S characteristics). Such investments were held prior to the sub-fund transitioning from Article 6 to Article 8 and continue to be held as they are subject to sanctions. They will be managed in the best interests of investors and will be sold once the sanctions are lifted.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

As at 31 December 2024, the Sub-Fund’s largest investments were in the IT, Consumer and Financial sectors.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

 **What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

 **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("**Other Assets**"). The Other Assets are

excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

For the period starting 11 December 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

### **How did this financial product perform compared to the reference benchmark?**

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Equity Fund (the “Sub-Fund”)

**Legal entity identifier:** 222100OVCPMJG309SC98

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the exclusion of exposure to corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").

"ESG Scoring Process" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 98.39% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 20.3 out of 30.
- (ii) the average E score of the Sub-Fund was 7.0 out of 10.
- (iii) the average S score of the Sub-Fund was 6.9 out of 10.
- (iv) the average G score of the Sub-Fund was 6.3 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"ESG Scoring Threshold" means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the "Permitted Bonds"), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

- 1) During the previous reference period (starting 1 January 2023 and ending 31 December 2023), 97.73% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the “E”, “S” or “G” combined scores). During the current reference 98.39% of the Sub-Fund’s investments met the ESG Scoring Threshold.

- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 19.4 out of 30 and as of 31 December 2024, the overall ESG score of the Sub-Fund was 20.3 out of 30.
- 3) Similarly to the previous reference period, during the current reference period 100% of the Sub-Fund’s investments in corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore’s ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 1 January 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 January 2024 – 31 December 2024

## What was the proportion of sustainability-related investments?

### ● *What was the asset allocation?*

As at 31 December 2024, 98.39% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 1.61% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or

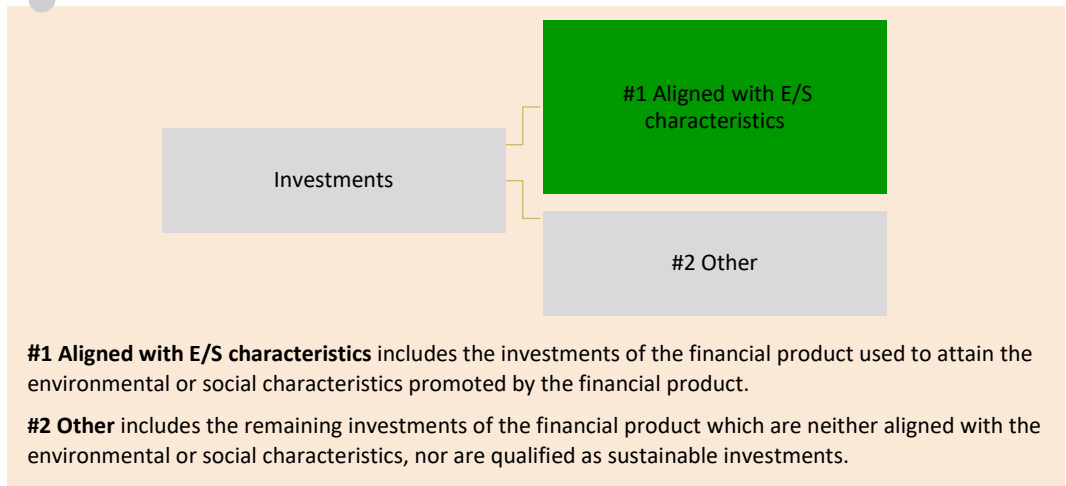

**Asset allocation** describes the share of investments in specific assets.

Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

***In which economic sectors were the investments made?***

As at 31 December 2024, the Sub-Fund's largest investments were in the IT, Financials and Communications sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

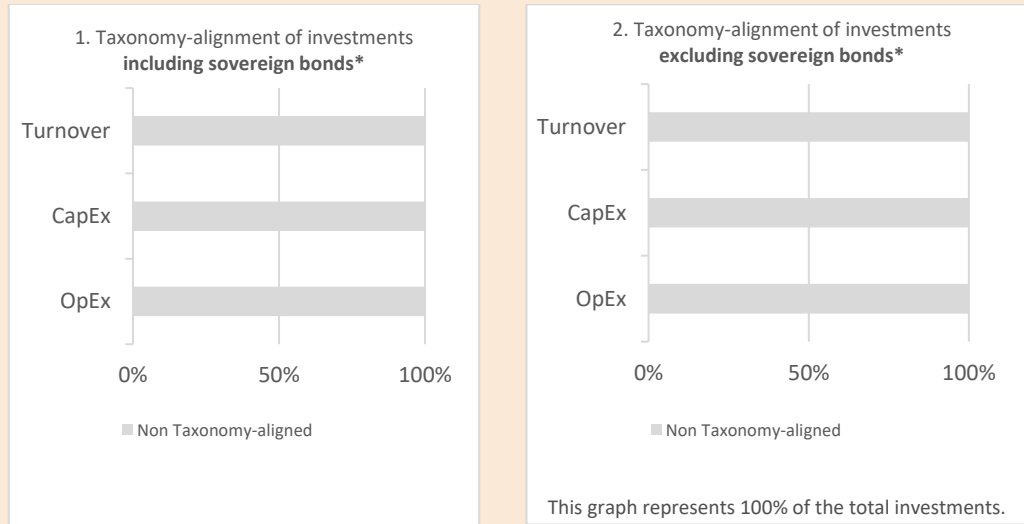

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("Other Assets"). The Other Assets are

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 1 January 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

### How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Equity ESG Fund (the “Sub-Fund”)

**Legal entity identifier:** 5493005RC0WXXY1B2D63

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

**Yes**

It made **sustainable investments with an environmental objective:** \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

**No**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, 2) the reduction of exposure to issuers which are corporates operating in certain industry sectors and 3) being managed to be aligned with net zero by 2050. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Reduction of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").
- 3) **Being managed aligned with net zero by 2050 for corporates:** The Sub-Fund was managed in a way which was aligned with the expectations of the Net Zero Asset Manager Initiative (NZAMI) framework based on the Net Zero Asset Owner's Alliance target setting protocol methodology.

"ESG Scoring Process" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 97.42% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 21.1 out of 30.
- (ii) the average E score of the Sub-Fund was 7.4 out of 10.
- (iii) the average S score of the Sub-Fund was 7.1 out of 10.
- (iv) the average G score of the Sub-Fund was 6.6 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"ESG Scoring Threshold" means issuers that score a combined score of 3 or less according to the ESG Scoring Process on any of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

- 1) During the previous reference period (1 January 2023 – 31 December 2023), 96.40% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on any of the "E", "S" or

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

“G” combined scores). During the current reference period (1 January 2024 – 31 December 2024), 97.57% of the Sub-Fund’s investments met the ESG Scoring.

- 2) At the end of the previous reference period, the overall ESG score of the Sub-Fund was 20 out of 30 and as of 31 December 2024, the overall ESG score of the Sub-Fund was 21.1 out of 30.
- 3) Similarly to the previous reference period, during the current reference period 100% of the Sub-Fund’s investments in corporates were in compliance with the Investment Manager’s industry sector exclusion policies.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore's ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 1 January 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

Largest investments	Sector	% Assets	Country
Taiwan Semiconductor Manufac	IT	9.91	Taiwan
Tencent Holdings Ltd	COMMUNICATION	8.34	China
Hdfc Bank Ltd-Adr	FINANCIALS	4.29	India
Delta Electronics Inc	IT	4.18	Taiwan
Mediatek Inc	IT	4.15	Taiwan
E Ink Holdings Inc	IT	4.05	Taiwan
Aia Group Ltd	FINANCIALS	3.66	Hong Kong
Contemporary Amp A(Hk-C)	INDUSTRIALS	3.35	China
Sk Hynix Inc	IT	2.84	South Korea
Meituan-Class B	CONSUMER	2.83	China
Grab Holdings Ltd - Cl A	INDUSTRIALS	2.33	Indonesia
Apollo Hospitals Enterprise	HEALTH CARE	2.33	India
Trip.Com Group Ltd-Adr	CONSUMER	2.13	China
Cipla Ltd	HEALTH CARE	2.12	India
Myeg	INDUSTRIALS	2.07	Malaysia

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: Q1 2024 – Q4 2024

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

As at 31 December 2024, 97.42% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 2.58% of its NAV in cash and/or hedging instruments (for such hedging instruments calculated using mark to market), which were

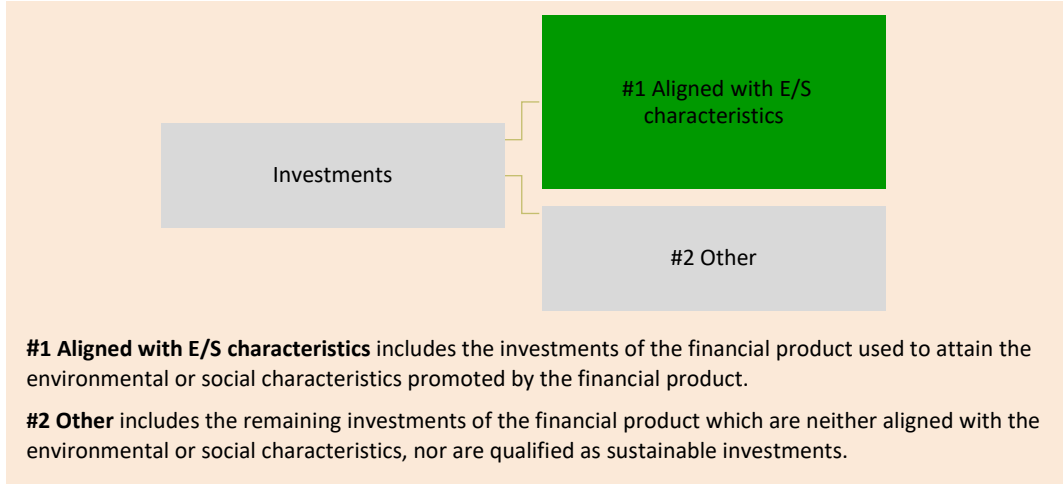

Asset allocation describes the share of investments in specific assets.

excluded from the binding elements of the Sub-Fund’s investment strategy for promoting environmental and/or social characteristics (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

As at 31 December 2024, the Sub-Fund’s largest investments were in the IT and Financial sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

**What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("Other Assets"). The Other Assets are

excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

For year ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 based on the application of the ESG Scoring Process;
2. excluded the sectors covered by the Investment Manager's industry exclusion policies; and
3. considered the NZAMI interim decarbonisation targets for 2025 as it related to corporates.

### **How did this financial product perform compared to the reference benchmark?**

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Ashmore SICAV Emerging Markets Equity ex China Fund (the “Sub-Fund”)

**Legal entity identifier:** 254900NWHME7ZH6O7X38

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the exclusion of exposure to corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "Investment Manager").

"ESG Scoring Process" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 94.30% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 20.6 out of 30.
- (ii) the average E score of the Sub-Fund was 6.0 out of 10.
- (iii) the average S score of the Sub-Fund was 6.0 out of 10.
- (iv) the average G score of the Sub-Fund was 8.0 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"ESG Scoring Threshold" means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the "Permitted Bonds"), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

### **How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore’s ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

## What were the top investments of this financial product?

For the period starting 16 July 2024 and ending 31 December 2024 (top investments as of 31 December 2024):

Largest investments	Sector	% Assets	Country
Taiwan Semiconductor Manufac	IT	10.6	Taiwan
Delta Electronics Inc	IT	4.24	Taiwan
Hdfc Bank Ltd-Adr	Financials	4.14	India
E Ink Holdings Inc	IT	3.74	Taiwan
Mediatek Inc	IT	3.64	Taiwan
Sk Hynix Inc	IT	2.89	South Korea
Alchip Technologies Ltd	IT	2.81	Taiwan
Infosys Ltd-Sp Adr	IT	2.76	India
Axis Bank Ltd- Gdr Reg S	Financials	2.71	India
Jsc Kaspi.Kz Adr	Financials	2.71	Kazakhstan
Sk Square Co Ltd	Industrials	2.56	South Korea
Mercadolibre Inc	Consumer	2.39	Brazil
Grab Holdings Ltd - CI A	Industrials	2.33	Indonesia
Dr. Reddy'S Laboratories-Adr	Health Care	2.33	India
Bank Mandiri Tbk Pt	Financials	2.26	Indonesia

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 16 July 2024 – 31 December 2024

## What was the proportion of sustainability-related investments?

### ● *What was the asset allocation?*

As at 31 December 2024, 94.30% of the Sub-Fund's investments exhibited the environmental and/or social characteristics promoted by the Sub-Fund in accordance with the binding elements of its investment strategy (#1 Aligned with E/S characteristics) and the Sub-Fund did not make any sustainable investments as defined under SFDR.

As at 31 December 2024, the Sub-Fund also invested 3.70% of its NAV in cash, hedging instruments (for such hedging instruments calculated using mark to market) and/or

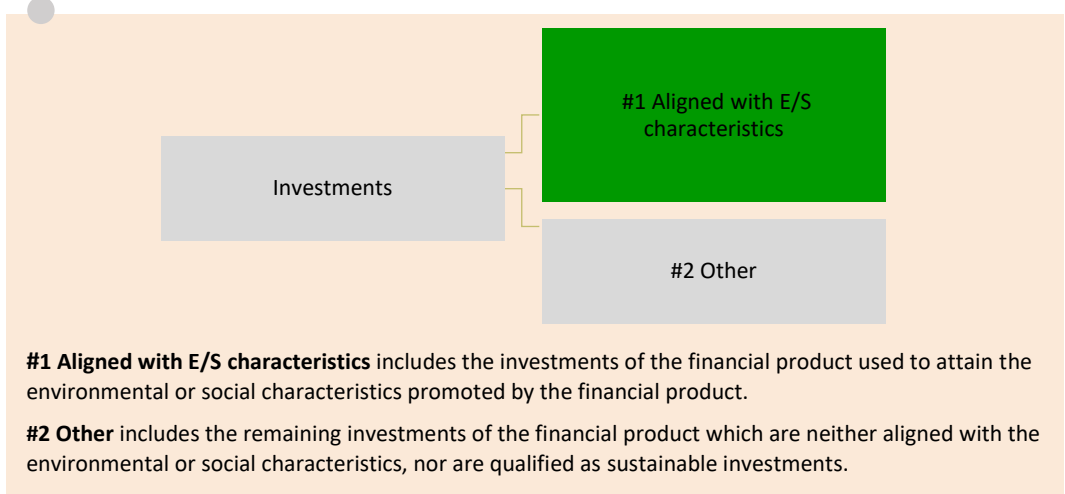

**Asset allocation** describes the share of investments in specific assets.

Permitted Bonds, which were excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

***In which economic sectors were the investments made?***

As at 31 December 2024, the Sub-Fund's largest investments were in the IT and Financial sectors.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any EU Taxonomy aligned investments. Therefore the share of investments in sustainable investments with an environmental objective aligned with the EU Taxonomy was none.

**● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Sub-Fund has not committed to invest in any minimum share of investments in transitional and enabling activities. Therefore the share of investments made in transitional and enabling activities was none.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with an environmental objective.

 **What was the share of socially sustainable investments?**

Not applicable. The Sub-Fund has not committed to invest in any sustainable investments with a social objective.

 **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund may, on an ancillary basis, hold cash, use financial derivative instruments for the purpose of hedging and invest in Permitted Bonds ("**Other Assets**"). The Other Assets are

excluded from the attainment of the environmental and/or social characteristics promoted by the Sub-Fund considering their nature.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

For the period starting 16 July 2024 and ending 31 December 2024, the Sub-Fund:

1. excluded issuers rated below 4 (other than Permitted Bonds) based on the application of the ESG Scoring Process; and
2. excluded the sectors covered by the Investment Manager's industry exclusion policies.

### How did this financial product perform compared to the reference benchmark?

Not applicable as the benchmark of the Sub-Fund does not measure the environmental or social characteristics of the Sub-Fund.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***  
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***  
Not applicable.
- ***How did this financial product perform compared with the broad market index?***  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

## Shari'a Committee Report

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

SHARIYAH  
REVIEW BUREAU

### Annual Shari'a Committee Report to the Unit Holders of Ashmore SICAV Emerging Markets Shariah Active Equity Fund

Praise be to Allah, Lord of the worlds, and peace and blessings be upon Mohammed, the leader of Prophets and Messengers, and upon his family and Companions, and upon those who follow his Guidance until the Day of Judgment.

It is our pleasure to present to you the Shari'a Committee Report for Ashmore SICAV Emerging Markets Shariah Active Equity Fund (hereinafter 'Fund'). In compliance with the letter of appointment, we the undersigned have reviewed the Fund's businesses & activities for the year ended 31<sup>st</sup> December 2024.

The prime responsibility for ensuring compliance with Shari'a standards and rules in all activities and business operations lie with the Fund Manager. It is our responsibility to present an independent opinion of the Fund's operations and to communicate it to the Unit Holders.

We have reviewed all transactions, agreements, and pertinent documentation adopted by the Fund during the year ended 31<sup>st</sup> December 2024 and an audit was conducted upon the Fund's activities as detailed in the Shari'a Audit report which was performed to ensure that the Fund's activities were in compliance with the set rules, principles and guidelines in addition to soliciting all information, documentations that were deemed necessary to reach to sound conclusions.

Based on the above and taking in consideration the recommendations set out in the Shari'a Audit report, it is our opinion that the reviewed transactions, related documentation & processes, business activities and dealings entered into by the Fund during the year ended 31<sup>st</sup> December 2024 are in compliance with the Islamic Shari'a Rules, Principles and Guidelines.

May Allah bless us with the best Tawfeeq to accomplish His cherished tasks, make us successful in this world and in the Hereafter, and forgive our mistakes.

## **Report of the Réviseur d'Entreprises Agréé**

To the Shareholders of  
Ashmore SICAV  
10, rue du Château d'Eau  
L-3364 Leudelange

### **Opinion**

We have audited the financial statements of Ashmore SICAV (the "Fund") and of each of its sub-funds which comprise the statement of net assets, and the schedule of investments as at 31 December 2024, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### **Basis for Opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Other information**

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

**Shape the future  
with confidence**

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### **Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### **Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

**Shape the future  
with confidence**

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
