<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund are: 1) the exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria, and 2) the exclusion of exposure to corporates operating in certain industry sectors. The extent to which these characteristics were met is each explained in more detail below:

- 1) **Exclusion of issuers having low ESG scores using Ashmore’s proprietary ESG scoring criteria:** The Sub-Fund did not invest in any issuer rated below 4 based on the application of the ESG Scoring Process (as defined below).

- 2) **Exclusion of exposure to corporates operating in certain industry sectors:** None of the Sub-Fund's investments in corporates were in violation of the industry sector exclusion policies of Ashmore Investment Management Limited (the "**Investment Manager**").

"**ESG Scoring Process**" means the scoring process of the Investment Manager whereby the Investment Manager issues a score to each issuer, based on their historical and current performance, taking into account the environmental, social or governance risks that an issuer may present, the performance of each issuer against environmental, social or governance factors that is drawn from a range of data sources. Such process of which is subject to change. The Investment Manager uses various tools to determine the most material ESG factors by industry by reviewing available information. The Investment Manager is a signatory of global initiatives including the United Nations supported Principles for Responsible Investment (UNPRI), and the Task Force on Climate-related Financial Disclosures (TCFD).

● **How did the sustainability indicators perform?**

In addition, the Investment Manager considered the following issues when assessing the environmental and social characteristics of the Sub-Fund:

- 1) 94.30% of the Sub-Fund's investments met the ESG Scoring Threshold (as defined below) (i.e. scored a combined score of at least 4 according to the ESG Scoring Process on two out of three of the "E", "S" or "G" combined scores), exceeding the minimum threshold of 80%.

In addition, as of 31 December 2024:

- (i) the overall ESG score of the Sub-Fund was 20.6 out of 30.
- (ii) the average E score of the Sub-Fund was 6.0 out of 10.
- (iii) the average S score of the Sub-Fund was 6.0 out of 10.
- (iv) the average G score of the Sub-Fund was 8.0 out of 10.

- 2) 100% of the Sub-Fund's investments in corporates were in compliance with the Investment Manager's industry sector exclusion policies.

"**ESG Scoring Threshold**" means issuers that score a combined score of at least 4 according to the ESG Scoring Process on any two out of three of the "E", "S" or "G" combined scores. Issuers below this ESG Scoring Threshold are not permissible investments for the Sub-Fund other than green, social, sustainability and sustainability-linked, or such other environmental, social or governance or other related purpose bonds as determined by the Investment Manager which are permissible investments (the "**Permitted Bonds**"), which for the avoidance of doubt are excluded from the binding elements of the Sub-Fund's investment strategy for promoting environmental and/or social characteristics. The ESG Scoring Process of the Investment Manager takes into account material ESG factors that are relevant to the specific assets in the Sub-Fund and compliant with the Investment Manager's industry exclusion policies.

● **...and compared to previous periods?**

Not applicable.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account the relevant indicators for principal adverse sustainability impacts in the Annex I of the RTS, having regard to their materiality. Such indicators were and are being employed in Ashmore’s ESG Scoring Process which considers the relevant principal adverse sustainability impacts on sustainability factors.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
